Office of Minority Health
Missouri Department of Health & Senior Services

MISSOURI OFFICE OF MINORITY HEALTH

The Office of Minority Health:

- Monitors the programs in the Missouri Department of Health and Senior Services for their impact on improving health equity for African American, Hispanic American, Alaskan/Native American, and Asian American/Pacific Islander populations.
- Advises the director of the Department of Health and Senior Services on all matters that affect health equity for Minority populations.

The Office of Minority Health is responsible for:

- Participating in the health education, design, and implementation of culturally sensitive and competent awareness programs that reduce the incidence of disease in Minority populations and increases the knowledge of available resources.
- Analyzing federal and state legislation for its impact on the health status of Minority populations.
- Developing programs that can attract other public and private funds.
- Assisting in the design of evidence-based programs and evaluations targeted specifically toward improving the health status and promoting health equity for all Minority populations.
- Providing necessary health information, data, and staff resources to the Missouri Minority Health Regional Alliances and minority communities.
- Collaboration with community and professional organizations, community health centers, universities and colleges, federal, state and local public health agencies.

The Office of Minority Health supports:

- Six regional minority health alliances (Northwest, Northeast, Southwest, Southeast, Eastern, and Central).
- Community-based organizations and activities.
- Senior services outreach.
- Education and capacity building seminars and trainings.
- Faith-based communities and initiatives.
- Technical and advisory assistance related to minority health issues.
