1. Terms & Conditions

## Missouri

### **Hospital Preparedness Program (HPP) Cooperative Agreement Recipient COVID-19 Preparedness and Response Administrative Supplement**

#### **Special Programmatic Terms and Conditions**

Within 30 days of receiving the award, recipients must submit the following:

1. a work plan
2. a detailed budget and budget narrative/justification

In response to the COVID-19 outbreak, Congress appropriated emergency supplemental funding to support the urgent preparedness and response needs of hospitals, health systems, and health care workers on the front lines of this pandemic. The Office of the Assistant Secretary for Preparedness and Response (ASPR) is awarding a total of \$350 million to health care preparedness and response cooperative agreements administered by the Hospital Preparedness Program (HPP). Along with the \$42 million provided to HPP cooperative agreement recipients in March 2020, the \$116.5 million provided through this administrative supplement will support hospitals and other related health care entities to prepare them to identify, isolate, assess, transport, and treat patients with COVID-19 or persons under investigation (PUIs) for COVID-19, and to prepare those entities for future special pathogen disease outbreaks. Recipients may request retroactive compensation for HCCs and health care facilities, including state/jurisdiction special pathogen treatment centers any of the activities described herein and in the previous COVID-19 notice of award special programmatic terms and conditions that were conducted as part of COVID-19 response beginning January 20, 2020. Recipients **must** request retroactive compensation at the time of the budget submission. The request should include the following information:

- Time period;
- Line item budget for the period; and
- Narrative description of the COVID-19 preparedness activities

Activities supported by this funding include all of the activities described herein and within the previous COVID-19 HPP emergency supplemental funding administrative supplement notice of award (NoA) special programmatic terms and conditions. Any additional activities or clarifications to activities supported by this funding are listed below:

- Ensure a physician is in the state or jurisdiction emergency operations center full time to manage patient facility assignments (right bed for the right patient) within their state or jurisdiction so that EMS and hospitals do not need to transfer patients; for example, participating in or establishing a Medical Operations Coordinating Cell (MOCC). This EOC physician should have insight into available resources at hospitals and other health care facilities.

To determine the exact amount of the administrative supplement for Missouri, ASPR utilized a funding formula specific to COVID-19. Metrics comprising the formula are: 1) capturing the risk of transmission as a function of population and 2) the size of the at-risk population based on age and underlying conditions. In addition to COVID-19 risk criteria, ASPR applied a base amount of \$172,500 for states and \$86,250 for territories and freely associated states – a proportional increase of the base amounts provided in the first tranche of funding. ASPR also included a minimum threshold of funding (\$750,000 for states and \$150,000 for territories and freely associated states) to respond to emerging trends showing that parts of the United States are experiencing medical surge differently at this time, based on COVID-19 patient influx or an underlying lack of bed capacity that pre-dated the pandemic. This threshold ensures that less populous states receive a significant level of funding to address these challenges without incurring major losses for more populous states with larger local outbreaks. Based on the formula, **each state or jurisdiction special pathogen treatment center must be allocated \$175,455.**

No more than 10% of the supplemental award can be used for the recipient’s direct costs, per the limit outlined in the administrative supplement. The additional funding **must** be allocated per the table below. Any deviations to the table below must be approved by ASPR.

**Funding table**

<b>Total Award for Missouri</b>	<b>\$2,252,746</b>
Set-aside for Special Pathogen Treatment Center(s)	N/A
Direct cost maximum for Missouri	\$225,275
