

ENVIRONMENTAL TESTING

Emergency Response chemical and environmental testing*

Food Testing

Abrin Toxin
Bacillus cereus Plate Count
Bioterrorism agent
Campylobacter
Clostridium perfringens
E. Coli O157:H7
Listeria
Metals
- Arsenic - Mercury
- Cadmium - Molybdenum
- Chromium - Selenium
- Copper - Thallium
- Lead - Tungsten
- Manganese - Zinc
Ricin Toxin
Salmonella
Shigella
Staphylococcus Enterotoxin
Vibrio
Yersinia

Lead Testing

Dust Wipes
Environmental Water
Paint
Soil

Water Testing

Bacteriology
- Coliform
- Escherichia coli
- Iron Bacteria
- Legionella*
- Pathogens (see Food Testing)
Metals
- Aluminum - Mercury
- Antimony - Molybdenum
- Arsenic - Nickel
- Barium - Selenium
- Beryllium - Strontium
- Cadmium - Thallium
- Chromium - Thorium
- Cobalt - Tin
- Copper - Titanium
- Iron - Uranium
- Lead - Vanadium
- Lithium - Zinc
- Manganese
Nutrients and minerals
Chloride
Fluoride
Nitrate
pH
Sulfate
Total Dissolved Solids

*Prior approval may be needed for testing
