

Attention Parents & Guardians

HELP PROTECT YOUR CHILD'S TEETH

Your child's school will host an event for free oral health screenings; provide oral health education, apply fluoride varnish, and a toothbrush and toothpaste to children who participate.

Fluoride varnish is safe and helps protect teeth against cavities.

Children in participating grades will bring home a consent form and additional information about fluoride varnish. Your consent is needed for your child to receive an oral health screening and fluoride varnish application.

Please contact the school nurse or administrator for more information.

An EO/AA employer: Services provided on a nondiscriminatory basis. Individuals who are deaf, hard-of-hearing, or have a speech disability can dial 711 or 1-800-735-2966.
