

THE TEAM-BASED CARE APPROACH:

The Role of the Pharmacist

Speaker:

Annie Eisenbeis, PharmD, MBA

WHAT WE'LL COVER

The Surgeon General's Call to Action to Control HTN

Team-Based Care Approach & the Pharmacist's Impact

Challenges and Opportunities

The U.S. spends as much money correcting the problems caused by medications as we do on the drugs themselves.

What are the real problems?

Patient involvement & access

Provider time and reimbursement

Education, and not just for the patient

Navigating the system

The Surgeon General's Call to Action to
Control Hypertension

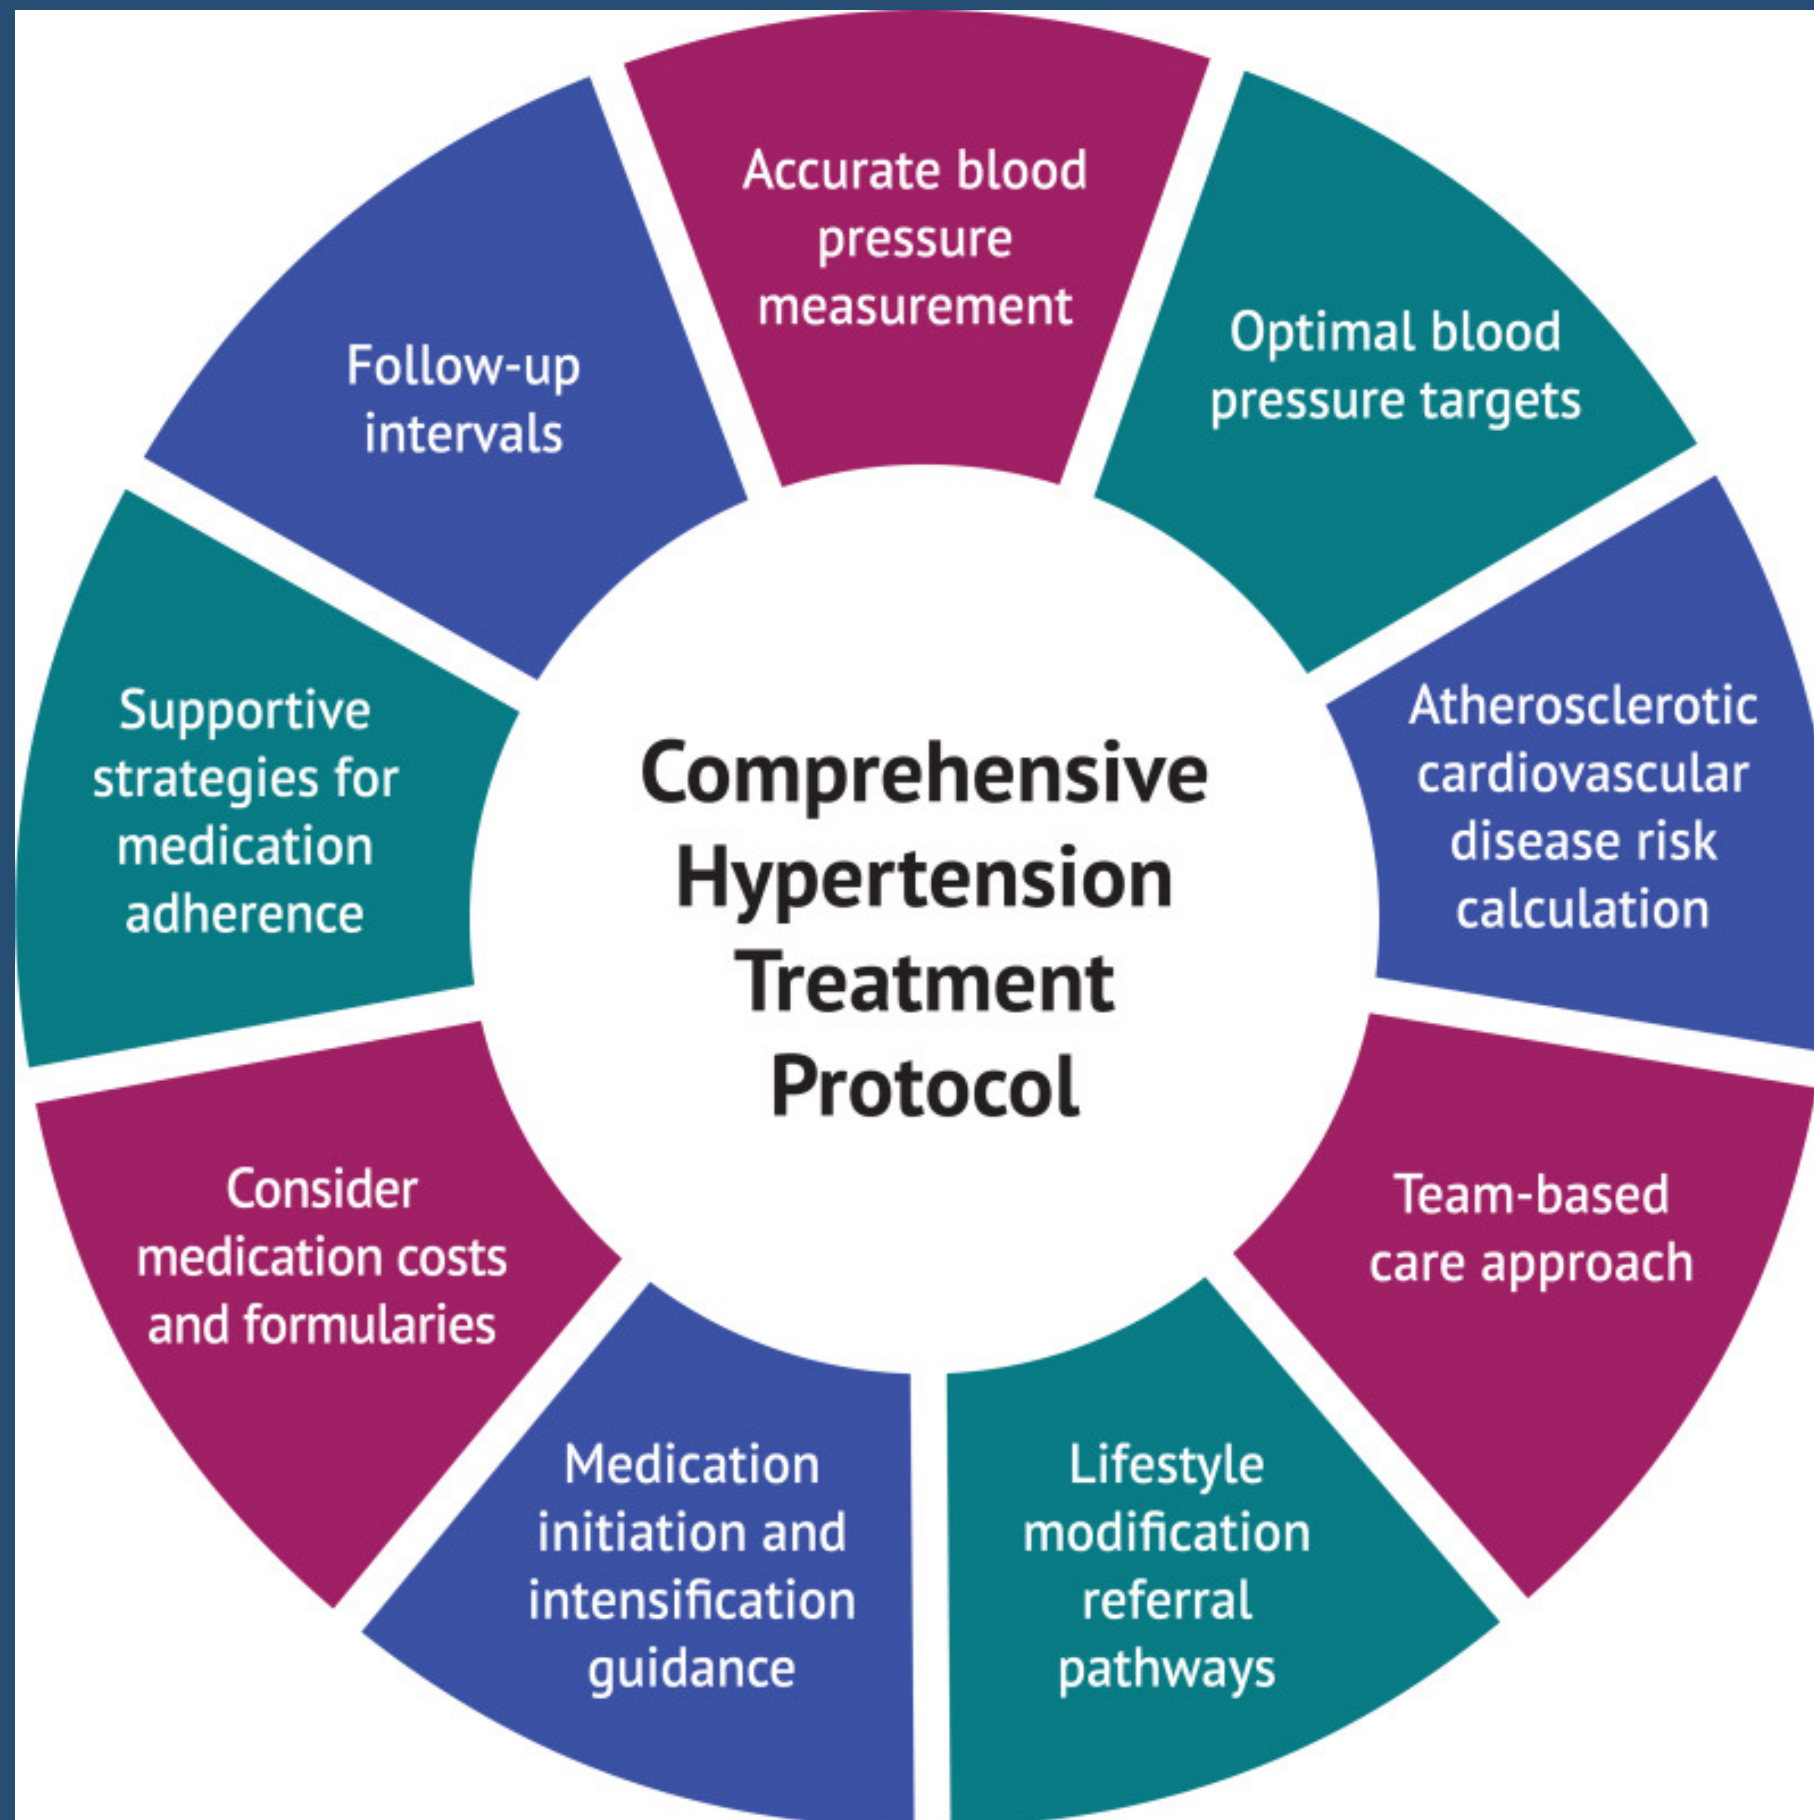

U.S. Department of Health and Human Services

SURGEON GENERAL'S

Call to Action to Control Hypertension

2020

Where could a pharmacist have an impact?

"Drugs don't work in patients who don't take them."

-C. Everett Koop, former US Surgeon General

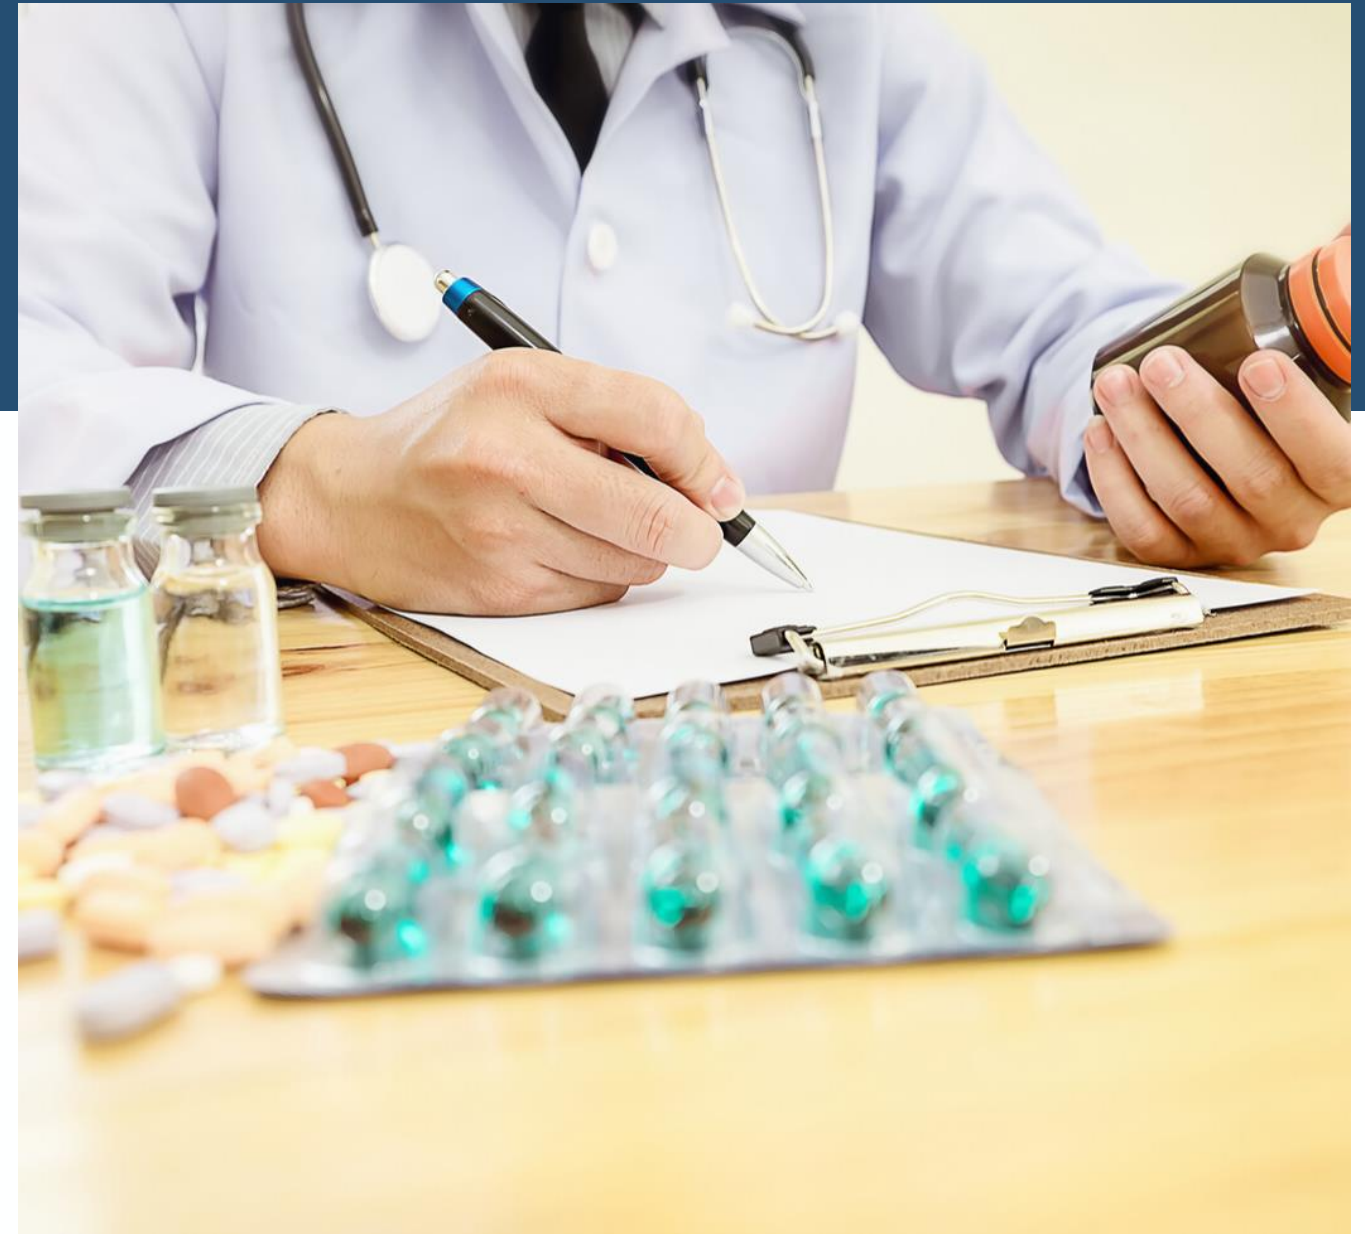

Did you know?

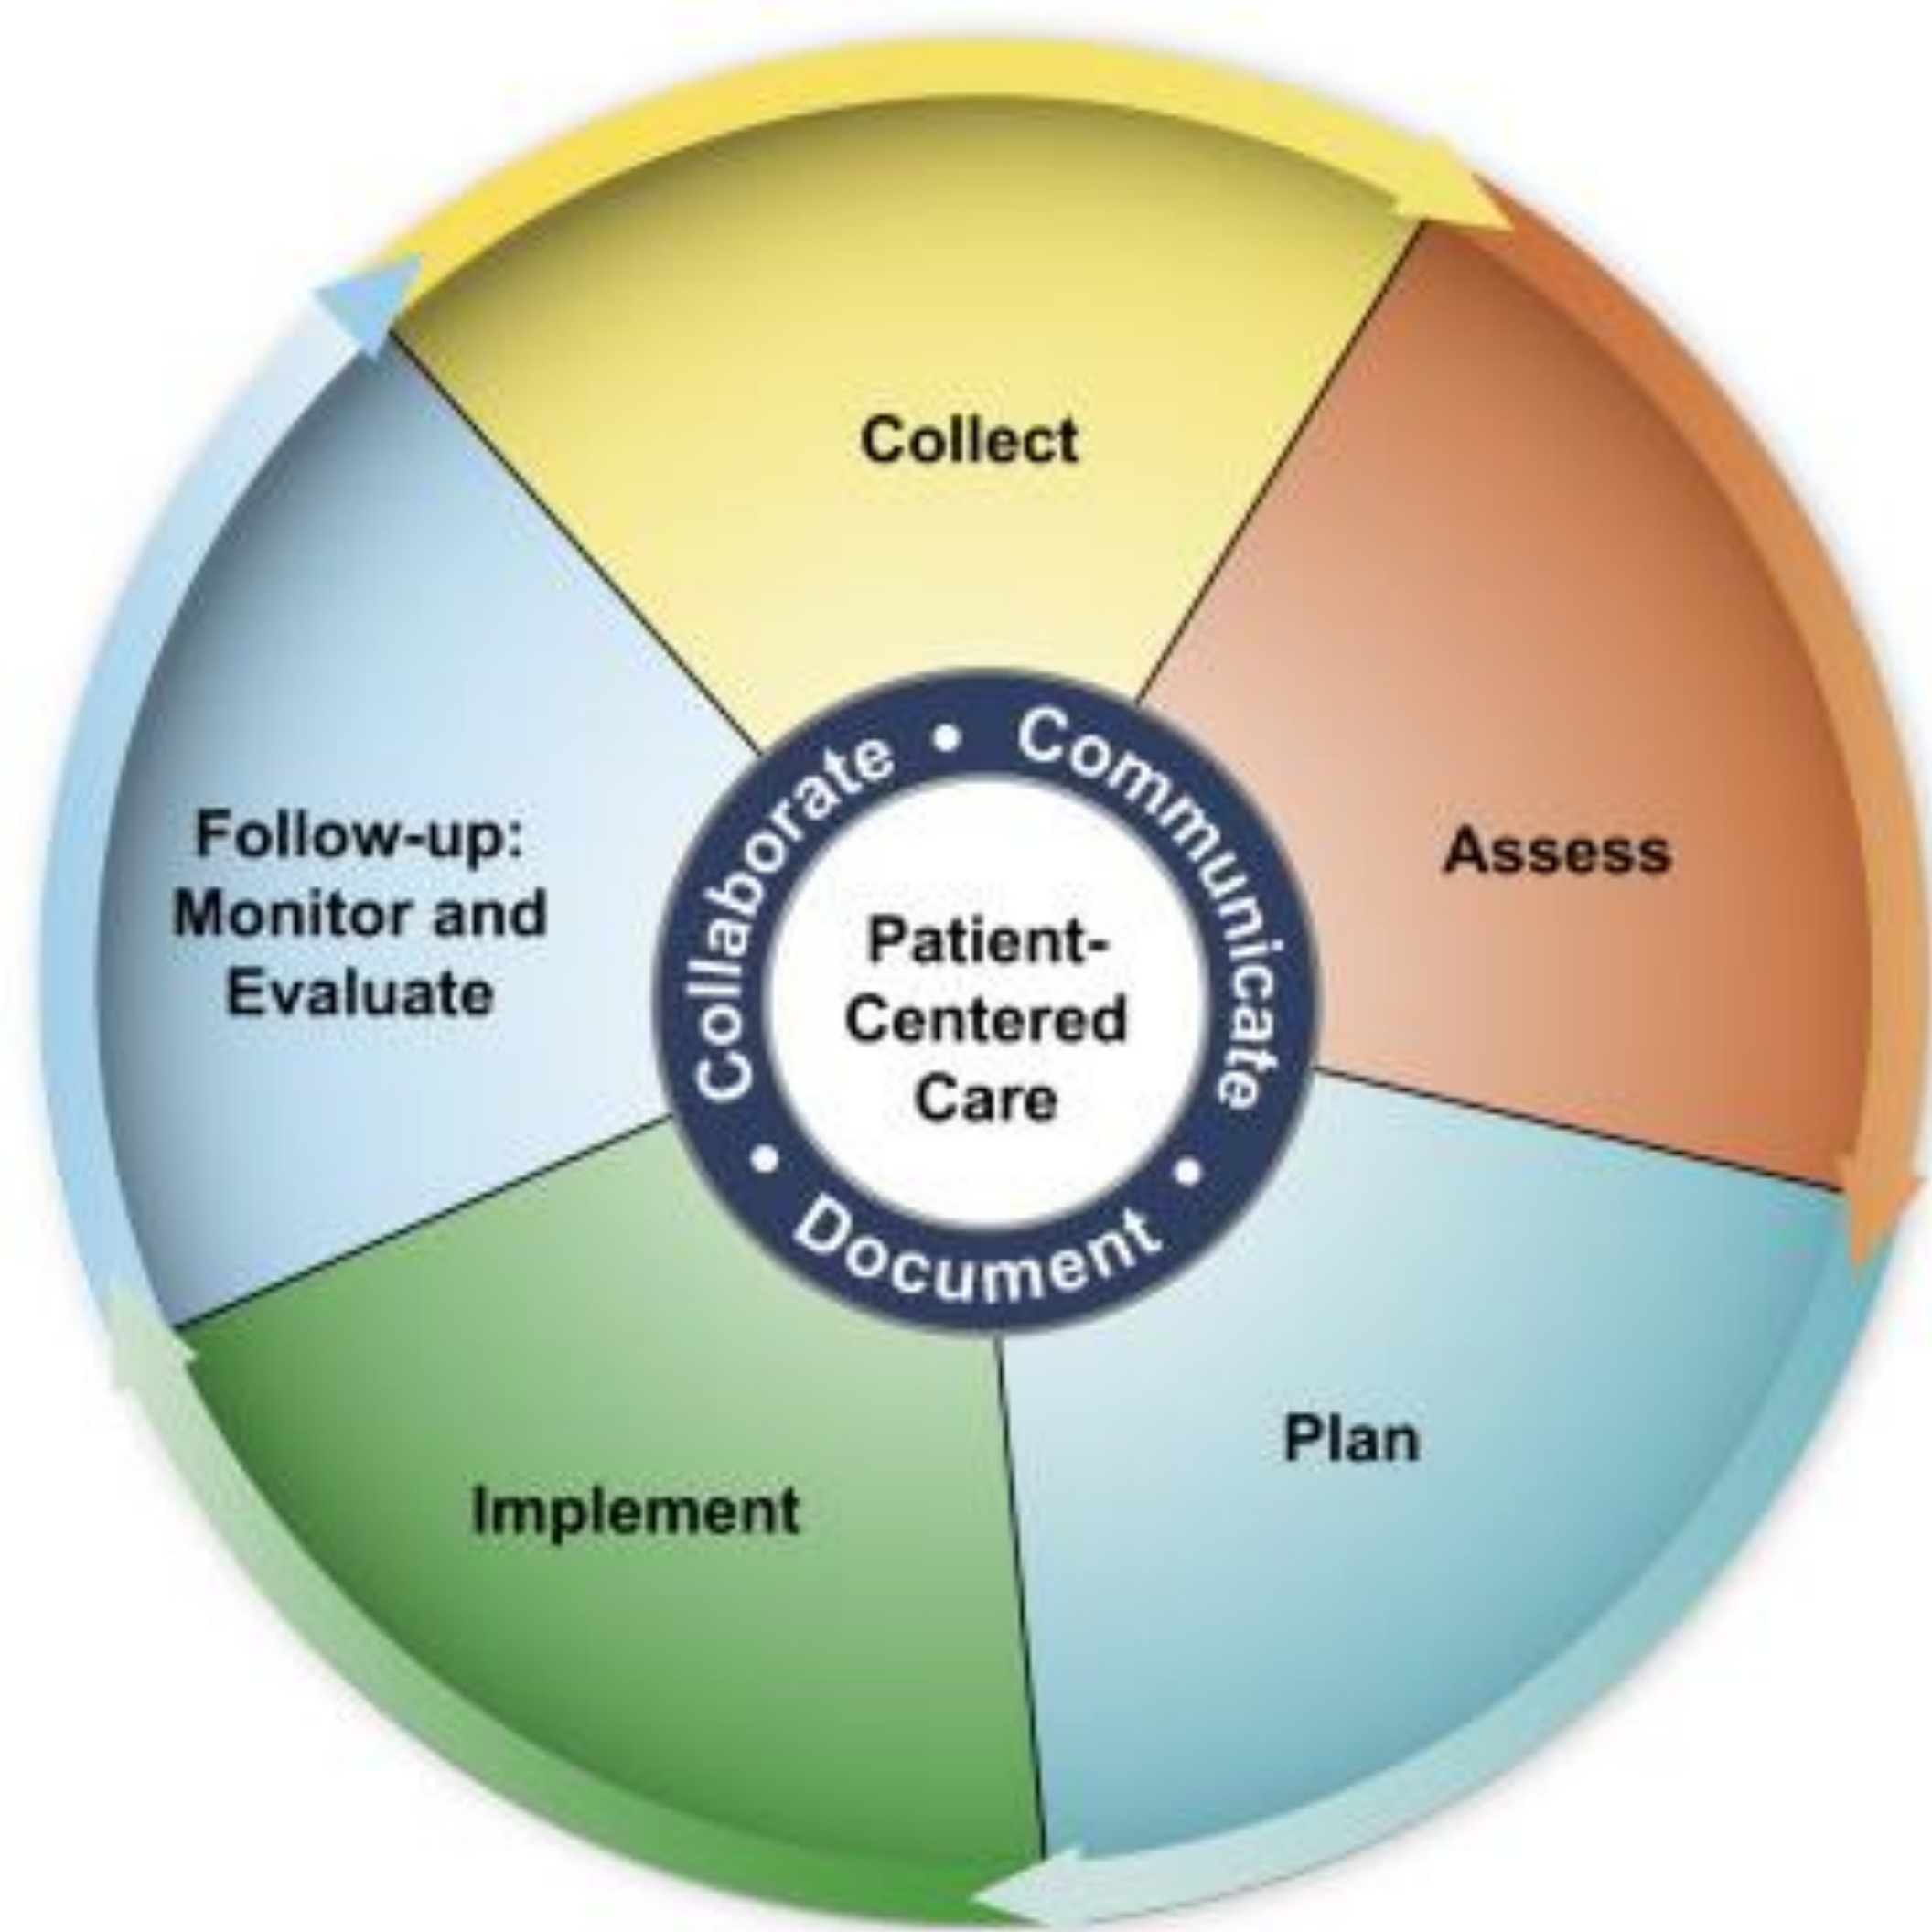

Education: Doctorate of Pharmacy

Health Care Settings:

- Community
- Health System
- Ambulatory Care Clinics
- Long-Term Care
- Industry & Research

Collaborative Practice Agreements & Clinical Service Agreements

Pharmacist Patient-Centered Care Process

RELATION TO TEAM-BASED CARE

- Hub of patient health information.
- Multiple patient touch-points per year
- Collaboration with other Health Care Professionals

TEAM BASED-CARE PUT INTO PERSPECTIVE

Complex patients see their community pharmacist on average **35x** per year.

These same patients see their PCP an average of **2 to 4x** per year

Opportunities

Chronic Care Management, Remote Physiological Monitoring, Transitions of Care Management

Diabetes Education, Self-Monitored Blood Pressure, & Smoking Cessation Counseling

Medication Optimization & Comprehensive Medication Review (Medication Therapy Management)

Adherence Counseling, Packaging, & Interventions

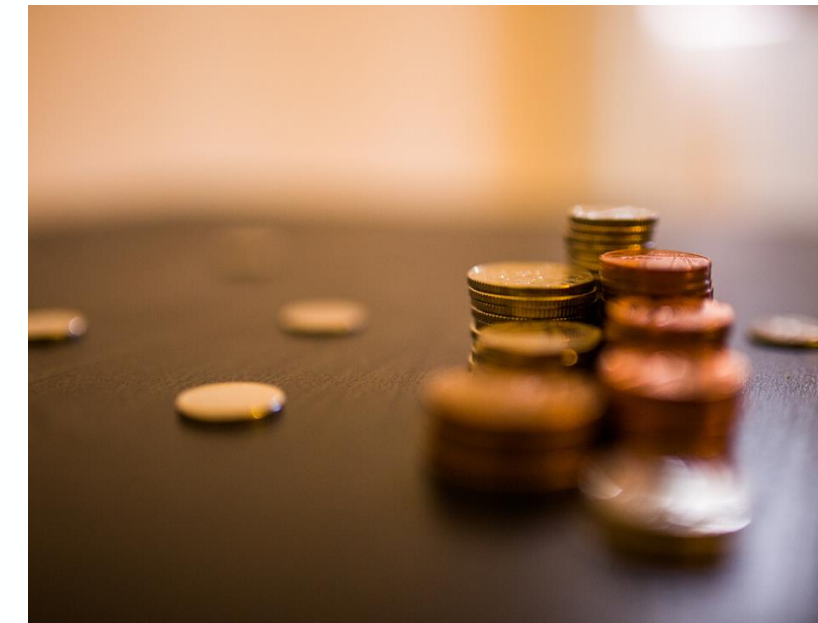

Barriers to Pharmacy Services

**CONTRACTING &
CREDENTIALLING**

**BILLING &
REIMBURSEMENT**

**SUSTAINABILITY &
PROVIDER STATUS**

How to Make an Impact

Is a pharmacist on your care team?

If not, let's start there.

Medication-related problem?

Think pharmacy.

Advocate.

Pharmacists need health care leadership champions.

Need more patient care time?

Add a pharmacist.
