1. Terms and Conditions

AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federalregulationspolicies/index.html>, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number **DP18-1803**, titled, State Public Health Approaches to Addressing Arthritis and application dated 2/3/2021, as may be amended, which are hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Approved Funding: Funding in the amount of \$305,345.00 is approved for the Year 04 budget period, which is July 1, 2021 through June 30, 2022. All future year funding will be based on satisfactory programmatic progress and the availability of funds.

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO. CDC program support to recipients will help ensure the success of the cooperative agreement by:

- Collaborating across CDC divisions and programs to provide team based technical assistance to grantees.
- Engaging subject matter experts across relevant areas of expertise when needed.
- When feasible, project officers will strive to hold technical assistance calls with a team of experts from across the NCCDPHP portfolio who can assist states in areas (e.g., policy, communications, health systems, etc.) common to this program and one or more other programs.
- Jointly developing and/or disseminating resources and tools that focus on cross-cutting functions, settings, risk factors, conditions and diseases to ensure consistent messages and to meet grantee technical assistance needs.
- Planning joint site visits with other NCCDPHP programs, when possible. Collaborative site visits will include agenda items relevant to all included programs, as well as break out times for individual programs to meet with individual program staff.

Ensuring that grantees know about the expertise available in the Division of Population Health and the process for how to access this expertise.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- ☒ Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 “Remarks” of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient’s authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.
