Missouri Nurse Aide Candidate Handbook

Introduction

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA '87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for Nurse Aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide related knowledge and skills. The purpose of a nurse aide competency evaluation program is to ensure that candidates who are seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the process of taking the nurse aide competency examination and is designed to help prepare candidates for testing. There are two parts to the nurse aide competency examination—a multiple-choice, knowledge test and a skill test. Candidates must pass both parts of the nurse aide competency exam to be identified and listed on the Missouri Nurse Aide Registry.

The Missouri Department of Health and Senior Services (DHSS) approved D&S Diversified Technologies (D&SDT)-HEADMASTER, LLP to provide tests and scoring services for nurse aide testing. For questions not answered in this handbook, please contact D&SDT-HEADMASTER at (888)401-0462 or go to the [Missouri webpage](#). The information in this handbook will help you prepare for your examination.

Nurse Aide Registry Requirements

The Missouri Nurse Aide Registry (MOCNAR) lists the name of certified nurse aides who, through training, testing and experience meet federal and/or state requirements to work as a certified nurse aide in Missouri. The Registry also identifies candidates who have been placed on the EDL (Employee Disqualification List) or who have a Federal Indicator (a CNA employed in a certified facility that has been found guilty of abuse, neglect or misappropriation of property) on their license.

A nurse aide candidate, upon successful completion of training, passing both the knowledge and skills portions of the competency exam, and meeting federal and/or state requirements will be listed on the Missouri Certified Nurse Aide Registry (MOCNAR). A newly trained nurse aide candidate must successfully pass both the knowledge and skills exams within one (1) year of training start date. Review the Nurse Aide Competency Exam section below to help prepare for the exam.

Registry Maintenance

Once placed on the Missouri CNA Registry, it is your responsibility to maintain your demographic information so that renewal notifications/alerts can be delivered to you in a timely manner. You must renew electronically by signing in to your TMU© account at <https://mo.tmutest.com>. Use your Email or Username and Password to sign in. If you are new to the system or have forgotten your password, refer to the 'Forget my Password and Recover My Account' section in this handbook to reset your password. If you need assistance signing in to your TMU© account, call D&SDT-HEADMASTER at (888)401-0462 or (888)401-0465 during regular business hours 7:00AM to 7:00PM CST Monday through Friday, excluding Saturdays, Sundays and holidays. Renewal reminders are emailed to your email address of record and/or texted to your SMS capable phone, so it is important to keep your contact information up to date.

Missouri Nurse Aide Candidate Handbook

Note: Renewal notifications/alerts are sent 60 days before your certification expiration date via email and text message. No renewal certifications are sent via USPS mail. It is important to keep your TMU© demographic information updated to receive your renewal notification.

You can check your registry status at any time, update your address and phone number and check your eligibility expiration date from any Internet capable device.

Registry name changes (marriage/divorce, etc.) must be verified with appropriate documentation. Copies of documentation must be emailed (missouri@hdmaster.com), faxed (406)442-3357, or mailed to D&SDT-HEADMASTER, P.O. Box 6609, Helena, MT 59604.

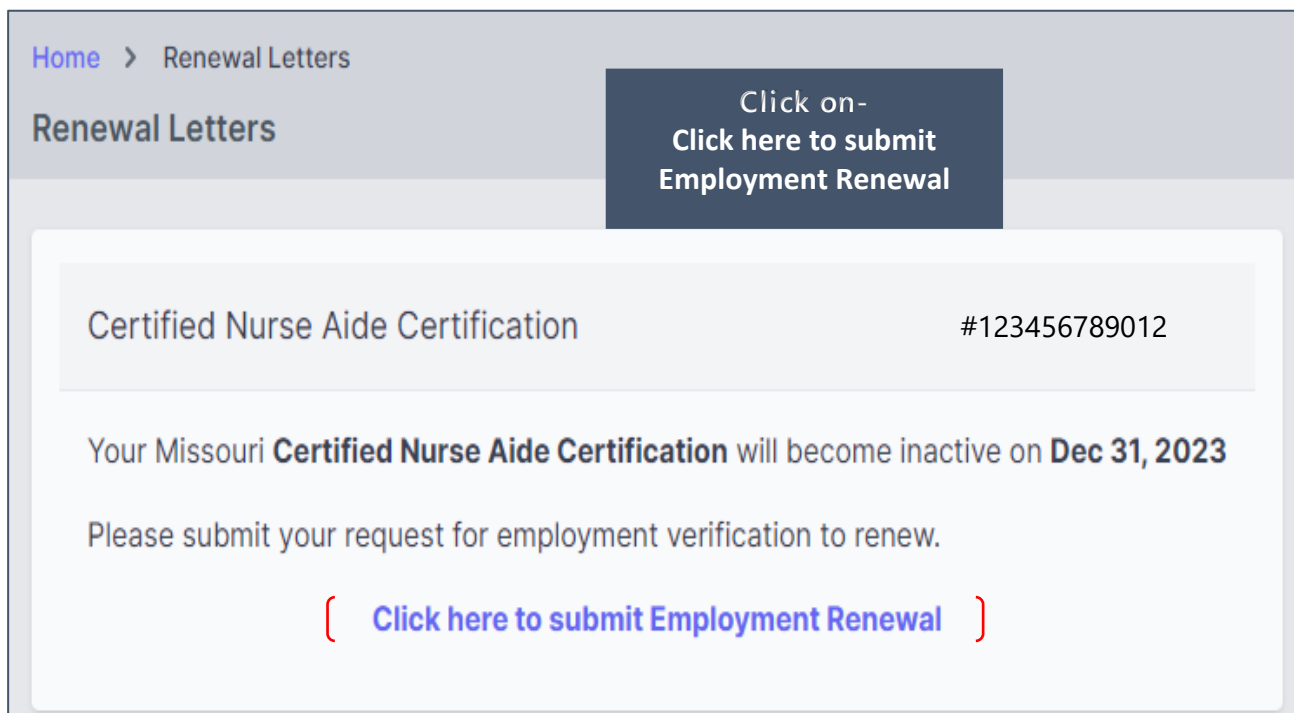

Registry Renewal

To maintain eligibility to work you must renew your eligibility every 24 months. To be eligible to renew, you must work for pay as a certified nurse aide performing nursing or nursing-related services at least eight (8) consecutive hours during the previous 24 months.

Note: If the documentation of work hours is not related to nursing services, your renewal may be denied. If denied, you may be allowed 15 business days to provide the correct documentation before you will be required to pay another renewal fee. Please ensure the documentation for the renewal includes 8 hours of nursing services provided within the last 24 months.

You must renew electronically by signing in to your TMU© account at <https://mo.tmutest.com>. Use your Email or Username and Password to sign in. If you are new to the system or have forgotten your password, refer to the 'Forget my Password?' section in this handbook to reset your password. Then follow the instructions below:

Missouri Nurse Aide Candidate Handbook

Under federal regulations, a certified nurse aide becomes ineligible for employment if they do not perform at least 8 hours of nursing related services for pay in a health care setting during a period of 24 consecutive months. To reestablish employment eligibility on the MOCNAR, you must successfully pass both components (knowledge and skills) of the approved Missouri nurse aide competency examination.

Registry Reciprocity

This information is for applicants who want to be entered on the MOCNAR through the Missouri Reciprocity/Out-of-State registry placement process.

How to Transfer your Certified Nurse Aide (CNA) Certification to Missouri from another State

You must be current and in good standing on a certified nurse aide registry in a state other than Missouri to be considered for placement on the MOCNAR.

For the criteria and to apply for reciprocity placement on the MOCNAR, you must complete an Out-of-State reciprocity form. You may fill out an Out-of-State reciprocity form by browsing to D&SDT-HEADMASTER's [Missouri webpage](#).

Once your completed application and all required documentation have been received by DHSS, they will determine if you are eligible to be added to the Missouri Certified Nurse Aide Registry. You must have a valid email address in order to receive your TMU© login user name and temporary password. You may check your listing on the Missouri Nurse Aide Registry (MOCNAR) at <https://mo.tmutest.com>. Any personal information entered into TMU© will only be used to determine whether you can work as a certified nurse aide in Missouri. Failure to provide complete and accurate information during the reciprocity determination process may delay or even prevent you from being listed on the MOCNAR.

Criteria to Challenge the Certified Nurse Aide Training Requirement

Individuals who meet special criteria may be eligible to take just the final certification examination (both knowledge and skills) without taking the certified nursing assistant course. A challenge will only be approved for one attempt to take the test. If either the skills test or knowledge test is failed then the individual would need to retake the whole course. For detailed information on the criteria to challenge the exam, follow the Missouri Department of Health and Senior Services link below:

health.mo.gov/safety/cnaregistry/

Americans with Disabilities Act (ADA)

ADA Compliance

The Missouri Department of Health and Senior Services and D&SDT-HEADMASTER provide reasonable accommodations for candidates with disabilities or limitations that may affect their ability to perform the nurse aide competency examination. Accommodations are granted in accordance with the Americans with Disabilities Act (ADA).

Missouri Nurse Aide Candidate Handbook

If you have a qualified disability or limitation, you may request special accommodations for examination. Accommodations must be approved by D&SDT-HEADMASTER in advance of examination. The request for accommodations can be found on the [D&SDT-HEADMASTER webpage](#) and clicking on the PDF Fillable [ADA Accommodation Form 1404](#). Fill out the ADA Request and attach with the required documentation found on the second page of the request form to an email to: missouri@hdmaster.com, in order to be reviewed for an accommodation.

ADA request forms submitted without supporting documentation of a diagnosed disability will not be accepted or reviewed.

Please allow additional time for your request to be approved. If you have any questions regarding the ADA review process or specific required documentation, please call D&SDT-HEADMASTER at (888)401-0462.

Refund of Testing Fees Paid

Requesting a refund of testing fees paid is different than rescheduling a test date. Requesting a refund means that you are not interested in taking the Missouri nurse aide certification test at all.

No phone calls will be accepted.

Therefore, you must keep your contact information up to date in case we need to contact you (**see examples below for reasons we may not be able to contact you that you are responsible for.*)

If D&SDT-Headmaster is unable to reach you via phone call or email with the information in your TMU© account (**see examples below*) in the event of an unforeseen circumstance for a test event you are scheduled in to, you will be taken out of the test event and D&SDT-Headmaster will not reschedule you until we hear back from you.

Test Review Requests

You may request a review of your test results or dispute any other condition of your testing. **There is a \$25 test review deposit fee.** To request a review, you must submit the PDF fillable [Test Review Request and Payment Form 1403](#) available on D&SDT-HEADMASTER's main webpage at www.hdmaster.com. Submit the Test Review Fee of \$25 (Visa, MasterCard or debit card) and a detailed explanation of why you feel your dispute is valid **within three (3) business days** from official scoring of your test (excluding Saturdays, Sundays and holidays). Late requests will be returned and will not be considered.

PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST: Please call D&SDT-HEADMASTER at (888)401-0462 during regular business hours 7:00AM to 7:00PM CST Monday through Friday, excluding holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit. Many times, once you have further details about the scoring of your test, you will understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-HEADMASTER staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

Since one qualification for certification as a Missouri nurse aide is demonstration by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for your re-test. If the results of the review are in your favor, D&SDT-HEADMASTER will pay your re-test fee and you will not be charged the test review fee; if not in your favor, the \$25 test review fee will be charged. D&SDT-HEADMASTER will review your detailed recollection, your knowledge test markings and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations and measurements recorded by the RN Test Observer at the time of your test. D&SDT-HEADMASTER will re-check the scoring of your test and may contact you and/or the RN Test Observer and professional Actor for any additional recollection of your test(s). D&SDT-HEADMASTER will not review test results or test reviews with instructors/programs. After a candidate reaches the age of 18, D&SDT-HEADMASTER will only discuss test results or test reviews with the candidate. D&SDT-HEADMASTER will not review test results or test reviews with family members or anyone else on behalf of the candidate once the candidate is 18 years of age. D&SDT-HEADMASTER will complete your review request within 10 business days of the receipt of your timely review request and will email the review results to your email address and to the Missouri DHSS.

The Manual Skill Exam

- The purpose of the Skill Test is to evaluate your performance when demonstrating Missouri DHSS approved nurse aide skill tasks. You will find a complete list of skill tasks in this handbook.
- You will be asked to re-present your photo ID previously shown to the RN Test Observer at sign-in.
- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Each of your randomly selected 3 or 4 tasks will have scenarios associated with them. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.
- You will be allowed a maximum of **30 minutes** to complete your three or four tasks. After 20 minutes have elapsed, you will be alerted that 10 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must successfully complete 100% of the tasks you are assigned. You may not miss any key steps (the **bolded** steps) and must achieve 80% or higher on the non-key steps on each task to pass the Skill Test.
- If you believe you made a mistake while performing a task, tell the RN Test Observer you would like to make a correction. You will need to correctly demonstrate the step or steps on the task you believe you performed incorrectly in order to receive credit for the correction.

Missouri Nurse Aide Candidate Handbook

- You may repeat or correct **any step** or **steps** on any task you believe you have performed incorrectly at **any time** during your allotted 30 minutes or until you tell the RN Test Observer you are finished with the Skill Test.
- The skill task steps are not order dependent, unless the words BEFORE or AFTER are used in a step.
- When you finish each task, verbally tell the RN Test Observer you are finished and move to the designated “relaxation area.” When the RN Test Observer and actor have set up and are ready for your next skill task demonstration, the RN Test Observer will read the scenario for your next task.
- **All steps must actually be demonstrated. Steps that are only verbalized WILL NOT COUNT.**

Skill Exam Recording Form

The RN test observer will provide a recording form similar to the one displayed on the next page if your skill test includes a skill task which requires recording a count or measurement.

Skill Exam Tasks

You will be assigned one of the following mandatory tasks as your first task:

- Catheter Care for a Female with Hand Washing (DEMONSTRATED ON A MANIKIN)
- Perineal Care for a Male with Hand Washing (DEMONSTRATED ON A MANIKIN)
- Donning an Isolation Gown and Gloves then Emptying a Urinary Drainage Bag with Hand Washing
- Perineal Care for a Female with Hand Washing (DEMONSTRATED ON A MANIKIN)

Note: Hand washing with soap and water is embedded in each of the mandatory tasks and must be demonstrated at the end of each mandatory task.

You will also receive an additional two or three randomly selected tasks from the Skill Task listing below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the

Missouri Nurse Aide Candidate Handbook

TMU© skill test assignment algorithm will be comparable in overall difficulty. That is why some skill tests will have a differing number of tasks.

Skill Tasks Listing

Every step must actually be performed and demonstrated during your skill test demonstration in order to receive credit.

The steps that are listed for each task are the steps required for a nurse aide candidate to successfully demonstrate minimum proficiency of the skill task for the RN Test Observer. The steps will be performed on a live resident actor for all but two tasks. The tasks of catheter care, perineal care for a female, and perineal care for a male, *will be demonstrated on a manikin*. You will be scored only on the steps listed.

You must successfully complete 100% of the tasks you are assigned. You may not miss any key steps (the bolded steps) and must achieve 80% or higher on the non-key steps on each task to pass the skill component of your competency evaluation.

If you fail the Skill Test, one of the tasks on your retest will be a task you previously failed. There will always be the one of the four mandatory tasks to start each Skill Test. The other tasks included on your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and average length of time to complete. The RN Test Observer will observe your demonstrations of your skill task steps and record what they see you do. D&SDT-HEADMASTER scoring teams will officially score and double check your test.

Note: The skill task steps included in this handbook are offered as guidelines to help prepare candidates for the Missouri nurse aide skill test and the steps included herein are not intended to be used to provide complete care that would be all inclusive of best care practiced in an actual work setting.
