

Part 1

Building the Capacity for QAPI Plans: Cultivating the Culture

January 14, 2014

1 - 2 p.m.

Where do we start?

How do we communicate what QAPI is to our staff and get them involved?

What is a QAPI Plan?

These are questions being asked by homes across Missouri. The six part webinar series will address the major components of QAPI and help your team build the capacity it needs to make QAPI come to life.

Using CMS' guide, Part 1 will explore how homes can develop the purpose, principles, and scope of their QAPI program. The webinar will also discuss how QAPI impacts all departments and requires participation of all staff in your organization.

Objectives:

1. Discuss the benefits of QAPI and the culture change that occurs.
2. Explore the CMS "Guide for Developing Purpose, Guiding Principles, and Scope for QAPI" to aid managers in developing and communicating the organization's vision and mission.
3. Describe how QAPI is integrated into all aspects of the organization.

Facilitator Pamela Guyer

Before the Webinar

Locate and review your mission, vision, and values statement.
