

ARHPC
Association for Rural Health Professional Coding

2016 Rural/Community Health Coding Bootcamp
Rural Health Coding & Billing Specialist (RH-CBS)
Community Health Coding & Billing Specialist (CH-CBS)
Training and Certification Prep Class

“Learn More to Earn More”

Hosted By:

800 Market Street, Suite 500, St. Louis, MO 63101

October 24 – 25, 2016

Why Attend?

- With the April 2016 requirement by CMS to require RHCs to provide HCPCS code-level detail (CPT and HCPCS-2) – it has never been more important to make sure you are documenting and coding for 100% of what is done.
- Billing is not supposed to change – but if you aren't documenting and coding correctly, revenue may be left on the table!
- With Information Technology finding its way into more areas of medical facilities the difference between clinical documentation, professional coding, and medical billing have never been more important.
- Learn about the guidelines that appear before and after key coding sections that rarely are accessible to providers and coders/billers in their EHRs and encoder software.
- We will limit the review of codes that will rarely or never be performed in your facility setting – but will review the CPT cover to cover including guidelines, appendices, and modifiers with focus on level of visits and preventive services.

Who is the Class For?

We recommend the class for clinical personnel (MD, DO, NP, PA, RN), coders, billers, EHR professionals, and facility and financial managers who work in rural health clinics, small rural hospitals, FQHCs and FQHC look-alikes.

What is Being Taught?

The Rural/Community Health **Clinical Documentation & Coding** portion will be taught live from 9 a.m. – 3:30 p.m on both days. The Rural Health **Billing** and Community Health **Billing** portions will be taught in two 1.5 hour sessions of webinar training within 2-3 weeks after class. The sessions will be recorded for those who can't attend live.

Earning the Rural Health or Community Health Coding and Billing Certification:

Upon completing both sections of class, authorized attendees can take a 100 question online examination. If a score of 75% is achieved, a certification of **Rural Health Coding & Billing Specialist (RH-CBS)** will be provided by the ARHPC. Full attendance includes the live training sessions, a one year ARHPC membership, billing webinars, and the testing fee.

After You Pass the Optional Examination:

A certificate will be provided along with annual CEU renewal requirements and membership dues based upon the date of successful class completion. If the test is not passed the first time a free re-test is available. The test must be taken within 60 days of the last day of class or a fee of \$75 will be charged. To maintain the certification, CEU requirements must be met along with payment of membership dues payable one year after the date of the class attended.

Cost: \$399 Per Person

(Includes class slides, 1 year membership, billing webinars, and exam fee for optional RH-CBS or CH-CBS credentials)

Seating is Limited to 50 Seats

EARLY BIRD SPECIAL if registered by Friday, July 29: Buy 2 and get 1 Free

Three registrations for \$798 – all three must register at the same time online at the link below
