Health Data Workshop
Objectives

1) Participants will be able to apply the concepts taught in *Introduction to Profiles and MICA* and *Health Data Analysis* to the process of collecting, analyzing, and disseminating data.

2) Participants will be able to utilize the features of Microsoft Excel and Microsoft Word to present health data more effectively in reports and presentations.

3) Participants will be aware of other data resources that can be used to obtain health statistics.

4) Participants will be able to critically read and revise health data reports and presentations in order to present a clearer message to their varied audiences.

5) Participants will be able to apply the knowledge gained during this training to better perform their job duties.
