

Fee Schedule

Fees are associated with most of the data products and statistical services provided by the Bureau of Vital Statistics and the Bureau of Health Care Analysis & Data Dissemination. Waiver of data fees is typically limited to local public health departments, state agencies, legislators, and media. However, even among these entities, data requests that require more than 4 hours of work, or that will be repeated on a periodic basis, are reviewed to determine whether a fee will be charged. In general, data requestors will be required to provide payment for the staff time and other costs associated with the data requests for their projects.

Note: For genealogy or requests involving copies or abstracts of certified vital records (birth, death, fetal death, marriage or divorce), please refer to the [Bureau of Vital Records](#) for application and fee information.

Payment is required before the request can be filled. Failure to provide a copy of the application or an invoice with your check or money order may result in a delay in processing your request. Total charges will be based on the fees listed below.
