

Protecting the Public Through Science

MISSOURI STATE PUBLIC HEALTH LABORATORY

PACKAGING AND SHIPPING OF CATEGORY B DIVISION 6.2 INFECTIOUS SUBSTANCES WEBINAR

At the conclusion of this program participants will be able to:

- Describe general regulatory requirements for packaging and shipping Category B Infectious Substances and Dry Ice
- Demonstrate the correct procedure for packaging and shipping
- Locate and utilize references and contacts for packaging and shipping questions and guidance

Speaker:

Amy Pierce

State Laboratory Training
Coordinator

This 90 minute webinar will introduce Sentinel Clinical laboratories to the roles and responsibilities assigned to facilities that package and ship Category B Infectious Substances and Dry Ice.

This intermediate-level program is designed for managers, supervisors, safety professionals and laboratorians working in clinical laboratories where infectious substances are routinely transported out to other facilities.

The shipper is always responsible until the package reaches the intended recipient.
