FIVE-DAY RECONCILIATION OF ATTENDANCE / ENROLLMENT / MEAL COUNT VERIFICATION

Instructions:

- 1. Choose five consecutive operating days from the meal count record for current or prior claiming period.
- 2. For this five-day period, gather records of: meal counts, current enrollment forms, and attendance.
- 3. Identify the number of participants in attendance during the five-day period.
- 4. Compare total meal counts to daily attendance to ensure that meal counts for each approved meal type did not exceed the number of participants in attendance on any day.
- 5. Compare total enrollment, in centers where enrollment forms are required, to daily attendance to ensure that the number of participants in attendance did not exceed the number of participants enrolled.
- 6. If meal counts cannot be reconciled with enrollment or attendance data, determine the source of the error and appropriate corrective action.
- 7. If necessary, take further steps, such as initiating a household contact or an additional unannounced visit, to determine whether corrective action and disallowance of meals or establishment of an over-claim are warranted. Reconciliation of the records of individual participants, by name, is another option for monitors to choose in determining the source of errors when meal counts cannot be reconciled with enrollment or attendance data.
