<b>1. AIM STATEMENT</b>	<b>2. PLAN</b>	<b>3. DO</b>
<p>Maintain or improve our high 95% of well child visits.</p> <p>October 2019 - December 2019</p>	<p>We are not experiencing a problem with our well child completion rate. We prioritize well child visits and have a system in place to monitor the completion of visits.</p>	<p>Our home visitor forms note if well child visits have occurred. We enter the information in REDCap. Our HVs discuss the importance of the baby's health and development and the importance of well child Dr. visits. Our data entry person notes if a well child visit has not taken place. She communicates that information to the HV and the supervisor. Problems and potential solutions are discussed implemented and reviewed in supervision.</p>

<b>4. STUDY</b>	<b>5. ACT</b>	<b>6. FUTURE CQI</b>
Please see the process stated in the Do section.	We will maintain our system that has worked well to date.	We discovered our established process works well and we will maintain it.
