1. AIM STATEMENT

The aim of SCMCAA EHS/HBO for the next 3 months is to do the following: increase socialization attendance by another 3%.

2. PLAN

- Home visitors will organize calendars that will be included in the family's home visit packet for that week.
- Incentive prizes will be handed out as door prizes for a quarterly drawing for each family that attends.
- Home visitors will call/text each family the day of the socialization to remind them of the event.
- Home visitors will start making invitations for socializations to make it seem more of a "party/celebration" event.

3. DO

Plan of action developed by SCMCAA EHS/HBO is as follows: Home visitors will have the calendars and invitations printed off and ready by the first of the month and put in the families "home visit" folder so that it will already be ready. We will put extras in our "home visit bag" so that they are readily available when needed. We will also ensure that all contact information is up to date so that we can remind the families the day of the event.

4. STUDY

- Home visitors will be able to increase their attendance by another 3% and we will then try to increase it again throughout the year.

5. ACT

- Supervisor will keep track of how the drawing prizes are going and make note of what works and what doesn't. The home visitors will continue to offer families assistance in getting to the socializations and they are planning on having some socializations at the local libraries and community agencies.

6. FUTURE CQI

We will revisit our goal on the next level one meeting. We will have an open discussion about where we are now and how to improve. We will also discuss any changes that need to be made or any new suggestions that have been offered since the last PDSA cycle.
