

Removing the WOM/Folio from a computer:

(Please note: If you do not have administrative rights on your computer, IT must remove this for you).

1. Click on start.
2. Click on control panel.
3. Click on Add/Remove programs.

A list of currently installed programs will show.

4. Look for the 2010-2011 WIC Operations Manual (most recent folio version) and click on it to highlight.
5. Click on remove. Click on yes to confirm and remove the 2010-2011 WOM. This will remove the program and should remove the icons from your desktop. If the icon remains on your desktop, you can simply highlight and delete.
