

Diabetes Surveillance System

Shumei Yun, MD, PhD

Chronic Disease Epidemiologist

Missouri Department of Health and Senior Services

Surveillance

The ongoing systematic collection, analysis, and interpretation of health data essential to the planning, implementation, and evaluation of public health practice, as well as the timely dissemination of these data to those who need to know

Thacker S, Berkelman RL: Public health Surveillance in the United States. Epidemiol Rev 10:164,1988.

Diabetes Surveillance System

- National Level
 - Behavioral Risk Factor Surveillance System (BRFSS)
 - Risk factors (e.g. obesity, physical inactivity)
 - Self-reported physician diagnosed diabetes
 - Diabetes preventive care practices
 - National Health Interview Survey (NHIS)
 - Prevalence
 - Incidence

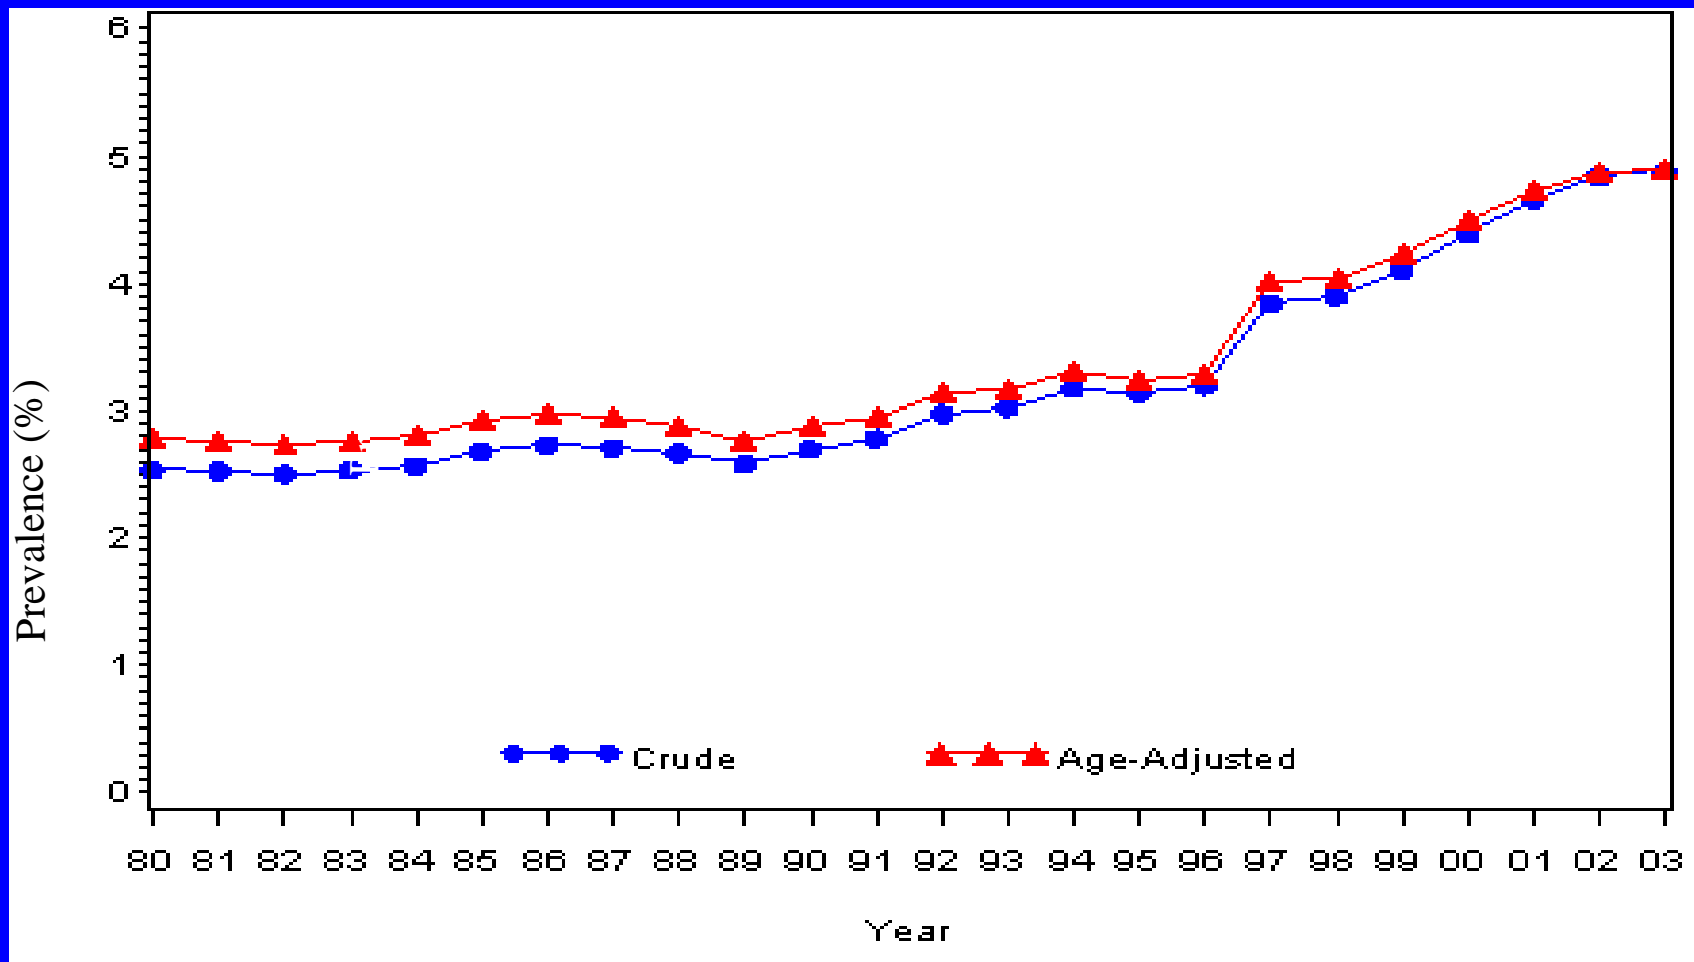

Diabetes Surveillance System

- National Level
 - National Health and Nutrition Examination Survey (NHANES)
 - National Hospital Discharge Survey
 - National Vital Statistic System
 - Birth Records
 - Death Records
 - U.S. Renal Data System (USRDS)
 - YRBS

Diabetes Surveillance System

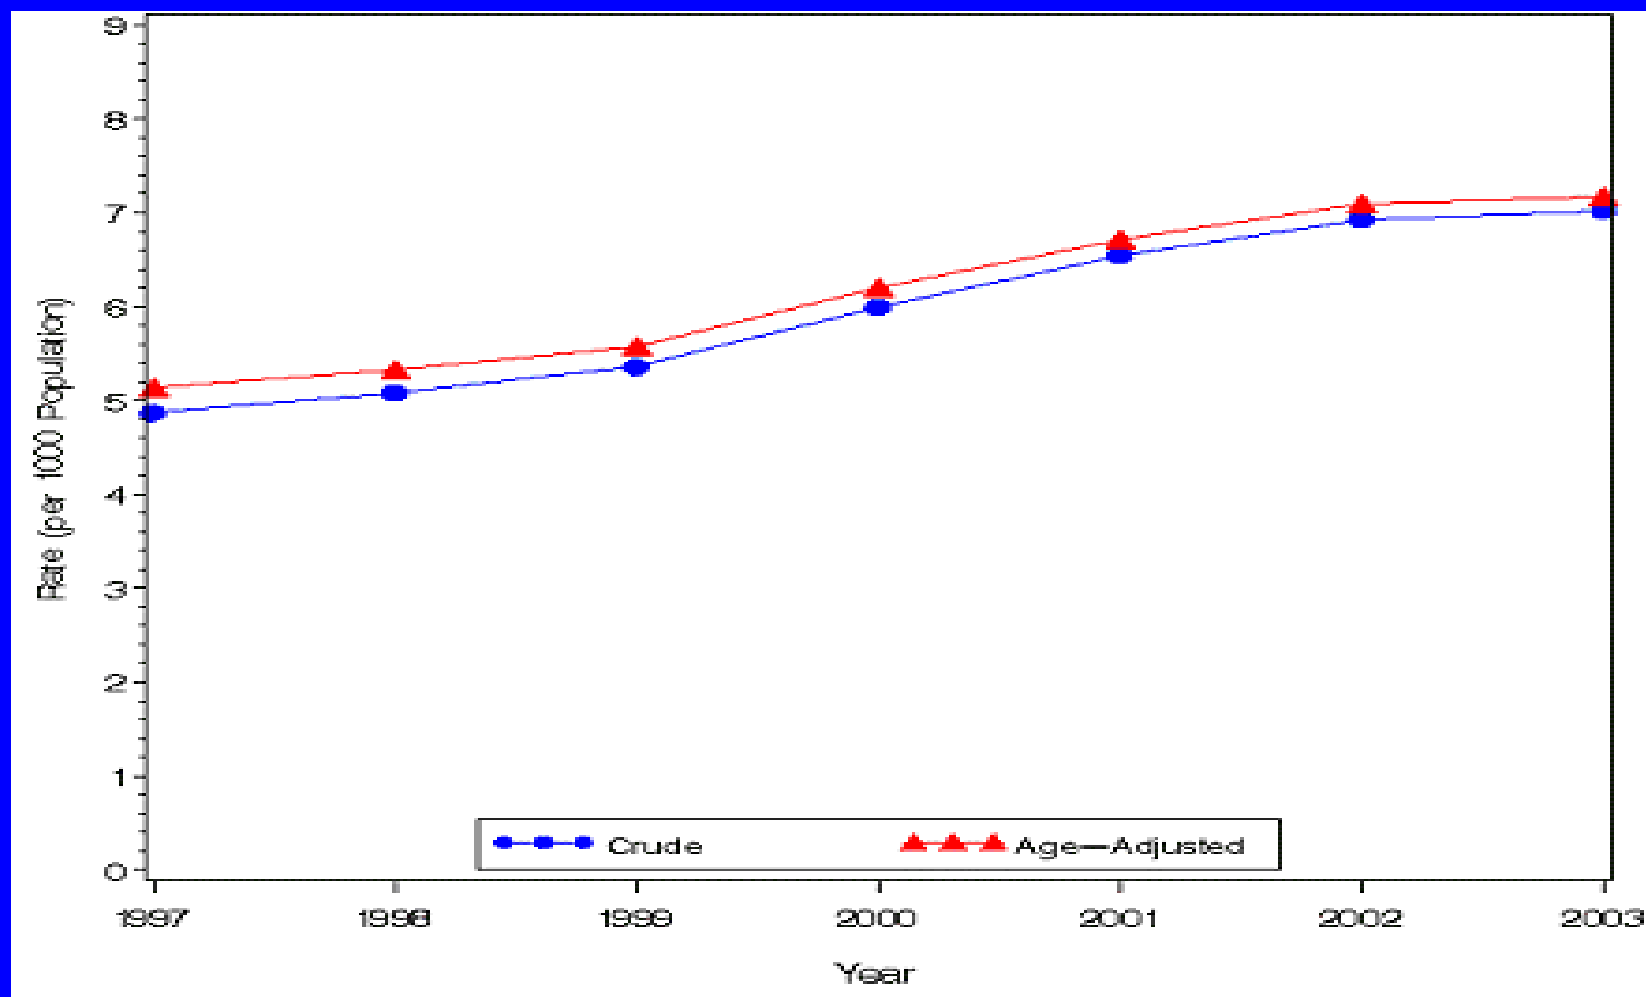

- State Level data
 - BRFSS
 - Hospital Discharge Data
 - Emergency Room Visit Data
 - Vital Records
 - Death Records
 - Birth Records
 - YRBS
 - YTS
 - USRDS

Prevalence of Diabetes Among Adults in the US, 1980-2003

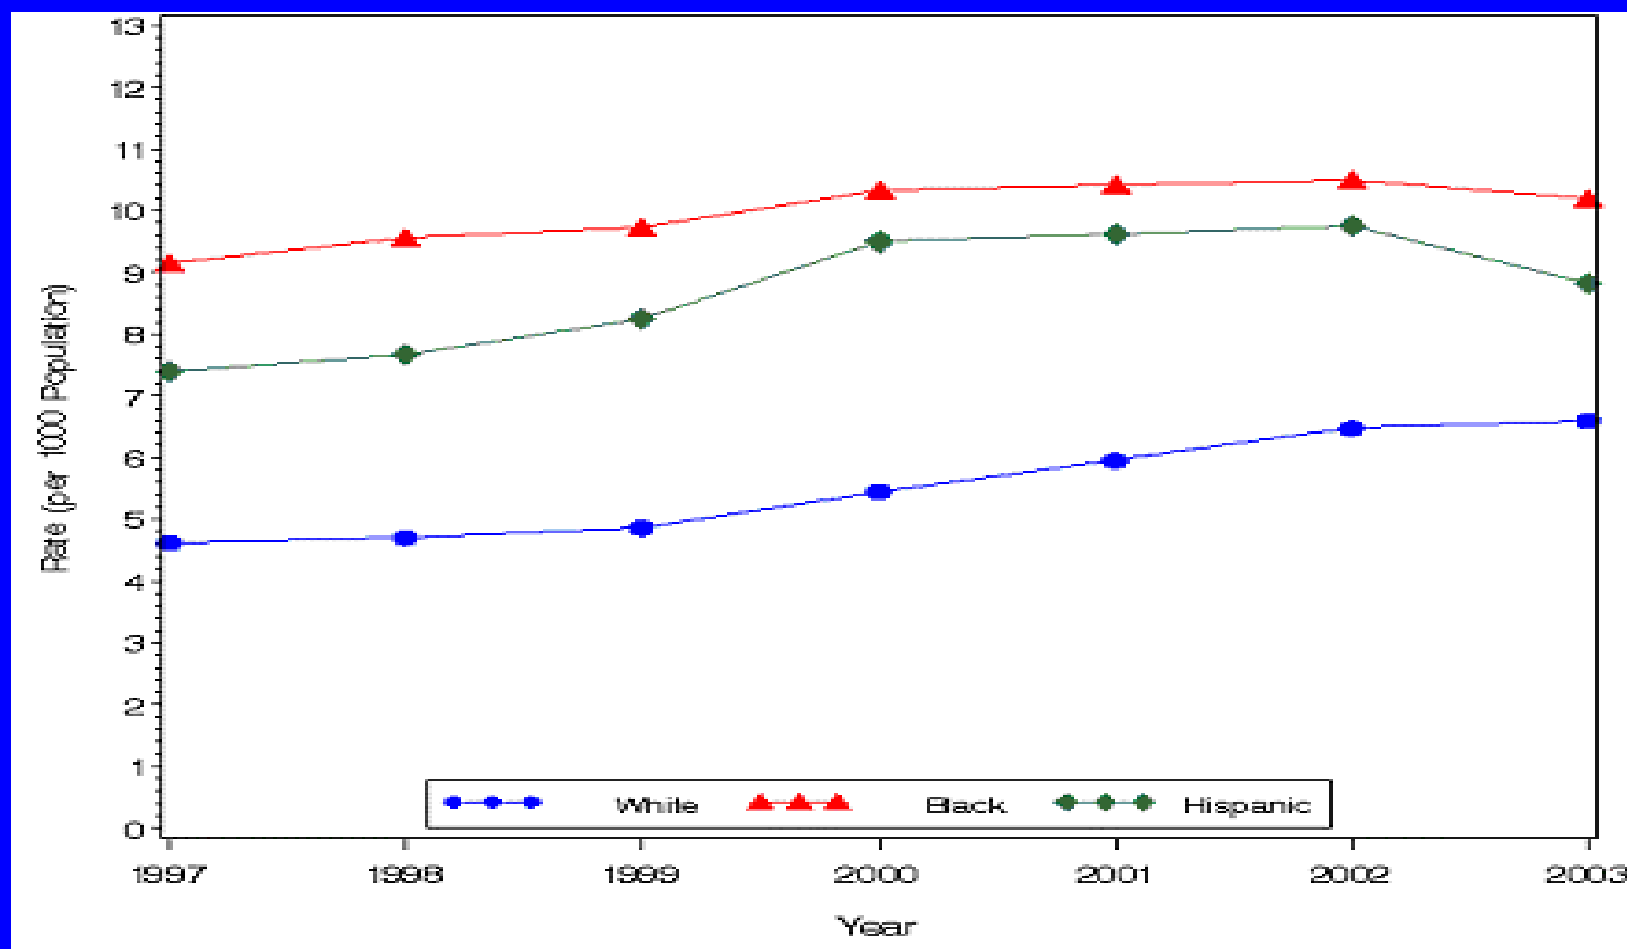

NHIS 1980-2003

Incidence of Diabetes Among Adults in the US, 1997-2003

Incidence of Diabetes Among Adults in The US, by Races

NHIS 1997-2003

What is the lifetime risk for diabetes for people born in the United States in 2000?

1 of 3 Americans

1 of 2
Hispanic
females

2 of 5 African
Americans and
Hispanics

Control diabetes. For life.
