1st Annual Time Critical Diagnosis (TCD) Educational Symposium

February 28th, 2014

**Christian Hospital Northeast
Dietrich Building, Atrium
11133 Dunn Road,
St. Louis Mo 63136**

Program Overview

This symposium has been developed for EMS, RN and MD's involved in the care of the time critical diagnosis (TCD) patient.

TCD is a Missouri-wide system that coordinates the 911 emergency phone system, ambulance services and hospitals in an integrated way to improve patient care and outcomes for Stroke, STEMI and Trauma.

This symposium will give educational credit to all providers on how TCD is being implemented in Missouri.
