<i>*Physicians must prescribe generic versions of non-HIV drugs, when possible.</i>	
<i>*If a medication is indicated as a branded generic, ADAP will cover whichever version of the medication is the least expensive option.</i>	
<i>*DHSS will generally approve all delivery methods of generic drugs including pill, tablet, cream, ointment, liquid, etc. with the exception of injectable medication. See formulary for specific coverage of injectable medication(s).</i>	
<i>*Intravenous (IV) formulary medications are <u>not</u> covered by Missouri AIDS Drug Assistance Program with the exception of, Trogarzo.</i>	
<i>*Trogarzo and Sunlenca are only available for ADAP clients through limited distribution. Please see ADAP specific procedures for access to the product, or contact the Missouri Department of Health and Senior Services (DHSS) for more details prior to prescribing.</i>	
<i>*Brand Name Hepatitis C medication is the preferred option for uninsured clients due to cost effectiveness considerations.</i>
