

RECOGNIZING AND TREATING TICK-BORNE DISEASES: A CME WEBINAR FOR MDs & RNs

Sponsored by: The Missouri Department of Health and Senior Services and The DEET Education Program

CME credits (1.5 hours) are provided through the American Academy of Family Physicians.
No cost to participants—90 minutes duration.

AN ARCHIVED WEBINAR PRESENTED BY:

Gordon Christensen, MD, *Professor, Infectious Disease Specialist*, University of Missouri Health Care

Joanna Regan, MD, MPH, *Medical Officer, Epidemiology Team*, Rickettsial Zoonoses Branch, CDC

Charles Apperson, PHD, *Professor and Entomologist*, North Carolina State University

Susan Little, *Executive Director*, DEET Education Program

MODERATED BY:

Howard Pue, DVM, MSVPM, *Public Health Veterinarian*, Missouri Department of Health and Senior Services

LEARNING OBJECTIVES

- Tick biology, behavior and habitat trends by U.S. regions that can impact your patients
- Lyme and STARI (Lyme-like disease): diagnosis, manifestations, and treatment
- Rocky Mountain spotted fever, anaplasmosis, ehrlichiosis, and other rickettsial diseases: diagnosis, manifestations, and treatment
- Patient education about basic strategies to help prevent tick bites and disease transmission
- Tick checks and proper tick removal: simple instructions for your patients

This Webinar is available, with the opportunity for CME credits, until 5/11/12 (the live Webinar was 5/11/10).
