### Missouri Department of Health and Senior Services

### 2014 Mosquito-borne Disease Positive Birds in Missouri

Week 53  
Ending January 3, 2015

State ID#	Year	County Name	Onset Date	Species	Arbovirus
MOBD140001	2014	St. Louis City	9/2/2014	Aleutian Cackling Goose	WNV
MOBD140002	2014	Boone County	9/10/2014	Red-tailed Hawk	WNV

### Dead Bird Reporting

The Missouri Department of Health and Senior Services (DHSS) no longer tests dead birds for the presence of West Nile virus (WNV). Although birds die from many different infectious diseases or exposure to toxins, DHSS' Internet dead bird reporting form is being used to track reports of dead birds because they may be an early sign of WNV activity in an area.

Users of these data are cautioned that reports from the public are not authenticated or confirmed in any way and are subject to inaccuracies. For more information on reporting and disposing of dead birds, go to <https://webapp03.dhss.mo.gov/DeadBird/Index.aspx>

SUMMARY OF REPORTS THROUGH JANUARY 3, 2015
