

READY TO GET STARTED?

Since ShowMeVax is a web-based application there is no installation or software download necessary. Each facility only needs a personal computer with high speed Internet connection. ShowMeVax will not cause problems or interfere with existing software on a computer system.

There is no cost to health care providers for ShowMeVax use or training.

Contact the Bureau of Immunization Assessment and Assurance today to sign-up at 877.813.0933 or showmevaxsupport@health.mo.gov.

Protecting the privacy of individuals is as important to ShowMeVax as protecting individual health. Missouri law permits sharing immunization information between public health agencies, clinics, schools, child care providers and health plans. Federal privacy rules also allow such sharing for the purpose of controlling disease and protecting public health.

Information about the Family Educational Rights and Privacy Act (FERPA) can be found at:
<http://www2.ed.gov/ploicy/gen/guid/fpco/ferpa/index.html>

HELPING KEEP CHILDREN SAFE

WHAT IS SHOWMEVAX?

Simple, yet vital... ShowMeVax is an immunization registry that helps providers play a vital role in ensuring Missouri residents of all ages are properly immunized.

- 1.** It is a confidential, centralized, computerized record of all vaccinations received by children and adults in our communities.
- 2.** Tracks recommended immunizations to keep children and adults on schedule.
- 3.** Easy, convenient to use and is accessible 24/7, wherever Internet connection is available.
- 4.** Usage, training and support are all free.

WHY SHOWMEVAX?

- Easily attainable immunization records for school, camp, child care enrollment and personal records.
- Helps comply with administering Advisory Committee on Immunization Practices (ACIP) recommended vaccines and schedules.
- Ensures that clients are properly and fully immunized.
- Reduces duplication and over immunizing.
- Reduces missed opportunities to vaccinate.
- Centralizes required information for vaccine administration (i.e., administration date, name of administering staff, manufacturer, lot number and NDC number.)

NO TIME FOR DOUBLE DATA ENTRY WITH EHR OR EMR SYSTEMS?

Data exchange is an easy and efficient way to share patient immunization information with ShowMeVax.

- Helps clinics meet federal requirements for submission of public health data.
- Ensures compliance with ACIP recommendations.
- Sharing patient immunization information with the registry assures valuable records are ready and available anytime a health care provider, school or child care provider needs to access the information.
- Produces vaccine coverage reports for Vaccine for Children program audit preparation.
- Depending on the EMR/EHR system, clinics may also have the option of receiving immunization records from ShowMeVax uploaded to your EMR/EHR.
