

READY TO GET STARTED?

ShowMeVax is a web-based application and there is no installation or software download necessary to get started. Each facility only needs a personal computer with high speed Internet connection. ShowMeVax will not cause problems or interfere with existing software on a computer system.

There is no cost to schools or child care providers for ShowMeVax use. Prior to gaining access and using ShowMeVax, child care providers must sign a confidentiality and security agreement with the Missouri Department of Health and Senior Services.

Contact the Bureau of Immunization Assessment and Assurance today to sign-up at 877.813.0933 or showmevaxsupport@health.mo.gov.

Protecting the privacy of individuals is as important to ShowMeVax as protecting individual health. Missouri law permits sharing immunization information between public health agencies, clinics, schools, child care providers and health plans. Federal privacy rules also allow such sharing for the purpose of controlling disease and protecting public health.

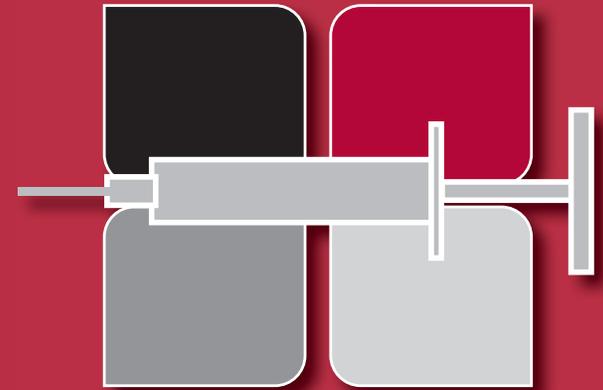

Information about the Family Educational Rights and Privacy Act (FERPA) can be found at:

INFORMATION FOR SCHOOLS AND CHILD CARE PROVIDERS

HELPING KEEP CHILDREN SAFE

WHAT IS SHOWMEVAX?

It is a confidential, centralized, computerized record of all vaccinations that children and adults in our communities have received.

- 1.** ShowMeVax simplifies the work of schools in enforcing the required school immunization laws.
- 2.** ShowMeVax helps child care providers to ensure children in their facilities are up-to-date on immunizations, creating a safe and vaccine preventable, disease free environment.
- 3.** ShowMeVax tracks recommended immunizations to keep children and adults on schedule.
- 4.** ShowMeVax usage, training and support are all free.

WHY SHOWMEVAX?

- Ensures that all children and workers are up-to-date on recommended and required immunizations for their age group.
- Access to direct links for current immunization requirements for Missouri.
- Cuts down on staff time needed to verify immunization status of all enrolled children.
- Keeps immunization records in a secure, confidential and central database for easy and quick access to immunization histories no matter where the immunizations were given in Missouri.
- Helps increase immunization rates.
- No special software or technology needed for use.
- ShowMeVax is free, confidential and easy to use.

IMPORTANT FACTS

- New federal regulations are now requiring clinical providers to submit immunization records to ShowMeVax.
- By requesting free access to ShowMeVax, an authorized user can view immunization records for children in schools and child care facilities. This provides the authorized user with quick access to the state's information center for immunizations without requiring parents to obtain medical records or provide proof of immunizations.
- ShowMeVax uses a webpage approach to search the state database. From a webpage, an authorized user can search for records and print a report of immunizations received for a selected individual.
