

For their sake. For your sake.

VACCINATE

You can't keep your baby in a fish bowl!

**Immunizations protect babies
and young children against
14 serious diseases.**

-
- Immunizations save lives.
 - Immunizations are safe and effective.
 - Immunizations are required for school and child care attendance.
-

**Call your child's medical
provider to verify your child's
immunizations are up-to-date.**

Helping Families Keep Children Safe

VACCINES for CHILDREN

Children may be eligible to receive free vaccines through the Vaccines for Children Program before their 19th birthday if they:

- are Medicaid eligible;
- do not have health insurance;
- are underinsured; or
- are an American Indian or Alaskan Native.

Doctors may charge a fee to give each shot; however, Vaccines for Children vaccines cannot be denied to an eligible child if the family cannot afford the fee.
