CONFERENCE OBJECTIVES

At the conclusion of the conference:

Participants will be able to name trends and challenges in the utilization of technology for immunization resources, recordkeeping, inventorying and information sharing.

Participants will be able to identify changes to the current immunization policies and practices brought about through the implementation of the Affordable Care Act.

Participants will be able to define current recommendations, changes and future climate of federal, state and local immunization programs and services.

Participants will be able to identify financing and delivery system elements for immunizations.

Participants will be able to increase their skill in addressing misinformation regarding immunizations, e.g. – myths, alternative schedules, media messages.

Participants will be able to identify legal requirements and liability related to the provision of immunizations.
