

MISSOURI CHILD CARE IMMUNIZATION RATES 19 MONTHS THROUGH KINDERGARTEN ENTRY

IMMUNIZATION RATES BY ANTIGEN

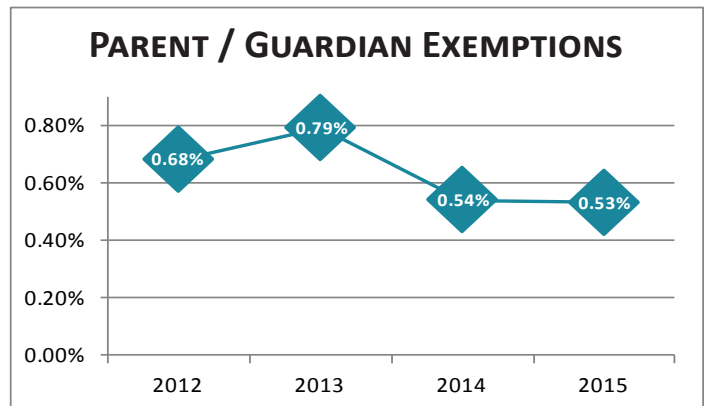

Section 210.003, RSMo requires that no child be permitted to enroll in or attend any public, private or parochial day care center, preschool or nursery school caring for 10 or more children unless the child has been adequately immunized against vaccine-preventable childhood illnesses.

Missouri Child Care Requirements for children 19 months through Kindergarten entry:

- DTaP: 4 or more doses of diphtheria, tetanus and pertussis vaccine
- IPV / Polio: 3 or more doses of poliovirus vaccine
- MMR: 1 or more doses of measles, mumps and rubella vaccine
- Hib: number of doses of Haemophilus influenzae type b vaccine depends on product type received and age at first dose
- Hep B: 3 or more doses of hepatitis B vaccine
- Varicella (chickenpox): 1 or more doses of varicella vaccine
- PCV: number of doses of pneumococcal conjugate vaccine depends on age at first dose

Medical exemption: certification by a licensed doctor of medicine, doctor of osteopathy or his or her designee indicating that either the immunization would seriously endanger the child's health or life, or the child has documentation of disease or laboratory evidence of immunity to the disease.

Parent / Guardian exemption: a parent or guardian exemption, by which a child shall be exempted from the requirements of this rule if one parent or guardian files a written objection to immunization with the child care administrator.

Note: All data based on child care assessments conducted to verify compliance with Section 210.003, RSMo.

- 2012 children assessed: 20,313 (January - December 2012)
- 2013 children assessed: 20,287 (January - December 2013)
- 2014 children assessed: 19,765 (January - December 2014)
- 2015 children assessed: 18,057 (January - December 2015)
