* DENOTES NEED TO COMPLETE THE REPORT OF STUDENTS IN NONCOMPLIANCE WITH MISSOURI SCHOOL IMMUNIZATION LAW (IMMP-10)

Title 19--DEPARTMENT OF HEALTH AND SENIOR SERVICES

Division 20 – Division of Environmental Health and Communicable Disease Prevention

Chapter 28 – Immunization

19 CSR 20-28.010 Immunization Requirements for School Children

PURPOSE: This rule establishes minimum immunization requirements for all school children in accordance with recommendations of the Advisory Committee on Immunization Practices (ACIP) and helps assure that appropriate actions are taken by schools to enforce section 167.181, RSMo.

(1) As mandated by section 167.181, RSMo, each superintendent of a public, private, parochial or parish school shall have a record prepared showing the immunization status of every child enrolled in or attending a school under the superintendent's jurisdiction. The school superintendent shall make a summary report to the Department of Health and Senior Services no later than October 15 of each school year. This date is necessitated by the law which prohibits the enrollment and attendance of children who are in noncompliance. This report shall include immunization information by grade or age by vaccine antigen (diphtheria, tetanus, pertussis, polio, measles, rubella, mumps, hepatitis B, and varicella), number of children enrolled, number of children adequately immunized, number of children in progress, and number of children exempt. Each school superintendent or chief administrator shall submit a summary report for all schools under the administrator's jurisdiction. Separate reports for each school should not be submitted, although separate lists shall be maintained in each school for auditing purposes.

(A) Exclusion of students in noncompliance, section 167.181, RSMo. Students cannot attend school unless they are properly immunized and can provide satisfactory evidence of the immunization or unless they are exempted. Transfer students in noncompliance shall not be permitted to enroll or attend school. Students who were enrolled during the previous school year shall be denied attendance for the current school year if not in compliance. Homeless children may be enrolled in school for no more than twenty-four (24) hours prior to providing satisfactory evidence of immunization. For the purpose of this paragraph, a homeless child shall be defined as a child who lacks a fixed, regular and adequate nighttime residence; or who has a primary nighttime residence in a supervised

publicly or privately operated shelter or in an institution providing temporary residence or in a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings. The school administration should exercise its power of pupil suspension or expulsion under section 167.161, RSMo and possible summary suspension under section 167.171, RSMo until the violation is removed.

(B) This rule is designed to govern any child—regardless of age—who is attending a public, private, parochial or parish school. If the specific age recommendations are not mentioned within this rule, the Missouri Department of Health and Senior Services should be consulted.

(C) It is unlawful for any child to attend school unless the child has been immunized according to this rule or unless the parent or guardian has signed and placed on file a statement of medical or religious exemption with the school administrator.

1. Medical exemption. A child shall be exempted from the immunization requirements of this rule upon certification by a licensed doctor of medicine or doctor of osteopathy that either the immunization would seriously endanger the child's health or life or the child has documentation of laboratory evidence of immunity to the disease. The Department of Health and Senior Services Form Imm.P.12, included herein, shall be on file with the school immunization health record for each child with a medical exemption. This need not be renewed annually.

2. Religious exemption. A child shall be exempted from the immunization requirements of this rule as provided in section 167.181, RSMo if one (1) parent or guardian objects in writing to the school administrator that immunization of that child violates his/her religious beliefs. This exemption on Department of Health and Senior Services Form Imm.P.11A, included herein, shall be placed on file with the school immunization health record.

3. Immunization in progress. Section 167.181, RSMo provides that students may continue to attend school as long as they have started an immunization series and satisfactory progress is being accomplished. A Department of Health and Senior Services Form Imm.P.14 included herein, shall be on file with the school immunization health record of each student with immunization in progress. Failure to meet the next scheduled appointment constitutes noncompliance with the school immunization law and exclusion should be initiated immediately. Refer to subsection (1)(A) of this rule regarding exclusion of students in noncompliance.

(2) For school attendance, children shall be immunized against diphtheria, tetanus, pertussis, polio, measles, rubella, mumps, hepatitis B, and varicella, according to the latest Advisory Committee on Immunization Practices (ACIP) Recommended Childhood Immunization Schedule—United States and the latest ACIP General Recommendations on Immunization. As the immunization schedule and recommendations

are updated, they will be available from and distributed by the Department of Health and Senior Services.

(A) Pertussis vaccine is not required for children seven (7) years of age and older.

(B) Hepatitis B vaccine shall be required for all children starting kindergarten or who were five (5) or six (6) years of age as of and after the beginning of the 1992-93 school year.

(C) Varicella vaccine shall be required for all children starting kindergarten or who were five (5) or six (6) years of age as of and after the beginning of the 2005-06 school year.

(3) The parent or guardian shall furnish the superintendent or school administrator satisfactory evidence of immunization or exemption from immunization against diphtheria, tetanus, pertussis, polio, measles, mumps, rubella, hepatitis B, and varicella.

(A) Satisfactory evidence of immunization means a statement, certificate or record from a physician or other recognized health facility or personnel stating that the required immunizations have been given to the person and verifying the type of vaccine. All children shall be required to provide documentation of the month, day and year of vaccine administration. However, if a child has had varicella (chickenpox) disease, the parent, the guardian, a licensed doctor of medicine or doctor of osteopathy may sign and place on file with the superintendent or school administrator a written statement documenting previous varicella (chickenpox) disease. The statement may contain wording such as: "This is to verify that (name of child) had varicella (chickenpox) disease on or about (date) and does not need varicella vaccine."

Auth: sections 167.181 and 192.006.1., RSMo (Cum. Supp. 1993). This rule was previously filed 13 CSR 50-110.010. Original rule filed April 24, 1974, effective May 4, 1974. Rescinded and readopted: Filed April 17, 1980, effective Aug. 11, 1980. For intervening history, please consult the Code of State Regulations. Amended: Filed September 23, 2003, effective April 30, 2004.
