### Agenda:

1. Establish Goals for Region
2. TCD Regulations, Resources, and Designation Update.
3. Central Region Regional Plans
4. Share-point

### Goals:

No matter where you're at, the protocol should be the same. In St. Louis they have established regional guidelines so they don't have to worry about which service bring in a patient.

Suggested a tear off sheet to have for each service that was designed by all to unify the care.

Thoughts should be to possible talk to surrounding regions to see what they have, we would not want to have 2 different approaches at neighboring regions.

Possible goal to establish a regional stemi, stroke, and trauma champion to send out to their region.

Jane D. will contact the St. Louis group to see if we can have someone possibly talk with us next time.

- The group would like to start working with Stroke first
- Need to get a list of all hospitals in the region from state

All sections need to separated, with individual breakouts

Do we want to incorporate PI and education events to the Regional plans? Outreach? PI? Transport?

### TCD Leads

- Leann Johnson and Marcia will head Trauma
- Tammy Harris will head Stroke
- Jane Dozier will work with Cindy STEMI
- James will head transport

Get l/p for sharepoint for them

Sharepoint access sent to Jerry Kirchhoff on 8/22/13

Get list of all hospitals and tcd contacts form state

Jane sent list

Is Imagetrend and the trauma registry talking? Do we have data definitions at this time?

Per Terry Ellsworth BEMS:

- MOSTORM compiling stroke and STEMI module at this time
- Working with some health facilities and this time and Imagetrend registry is in Beta form at this time

TCD Update

Central Region will have access to the manikin for a month

Pediatric score was 60, ours was 74. Two main areas was transport guidelines, 2<sup>nd</sup> supply kit for ped airway was the 2<sup>nd</sup> biggest problem. (supply and training)

Jeff wanted to pass along that the burn unit is now open. There still might be a few cases that will be rejected.
