

Missouri Department of Health and Senior Services Recall Alert

The Missouri Department of Health and Senior Services received the following Class I Type III recall for certain lots of two products from Ian's Natural Foods. Certain lots of these two products may be contaminated with *Listeria monocytogenes*, but it is unknown if these bacteria were found in these products through laboratory testing or if there are any illnesses associated with them. These products may have been sold in Missouri.

FOR IMMEDIATE RELEASE - January 24, 2011 - Ian's is voluntarily recalling specific lot numbers of two products due to a risk of contamination with *Listeria monocytogenes*. *Listeria monocytogenes* is an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy persons may suffer only short-term symptoms such as high fever, severe headaches, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths in pregnant women.

The following two products with the specific use-by dates and UPC codes listed are being recalled because they may have been distributed to retailers nationwide and sold in the frozen foods section of the supermarket:

- 8-ounce boxes of Ian's Wheat Free, Gluten Free Mac and No Cheese with a use-by date of 26Aug2011 and UPC code 7-49512-43670-8 (372 packages impacted)
- 8-ounce boxes of Ian's Wheat Free, Gluten Free French Bread Pizza with a use-by date of 28Aug2011 and UPC code 7-49512-91572-2 (120 packages impacted)

A total of 492 individual boxes are potentially affected.

Consumers who purchased the above products with the specific use-by dates and UPC codes listed are asked to return the products to the place of purchase to receive a full refund. Products that do not contain the specific use-by dates and UPC codes listed are not affected by the recall, and can be used by consumers.
