

MEDICAL RECORD REQUESTS AND FEES

The Adult Brain Injury (ABI) Program will consider paying the charges to obtain a copy of a participant's medical record, when the provider who has the information is not a SHS approved provider. The ABI Program will not pay the charges to obtain a copy of a participant's medical record when the individual/facility that has the needed information is a SHS approved provider.

It is customary for health care providers to waive fees for state agencies when the purpose of the review is to conduct state business and carry out state statutes as found in 19 CSR 40-1 Crippled Children's Service (CCS). Because the services are provided through a contractual agreement with the LPHA's, the request for reimbursement will be processed at the current rate posted at:

<http://www.health.mo.gov/ProtectingThePublic/FeesMedicalRecords.html>.

The Service Coordinator shall attach a copy of the Fees for Medical Records form to each request for medical records. The form instructs the health care provider where to mail the records and who to bill for the records. The form must be individualized to reflect the Service Coordinator's name and address.

Providers that bill SHS must itemize the handling and per page fees for medical records in order to have their invoices accepted and processed. Invoices billed by the contracted agencies will not be accepted.

Invoices received by the contractor agency should be sent to SHS immediately.
