BUREAU OF SENIOR PROGRAMS
The Bureau of Senior Programs is responsible for ensuring the effective and efficient management of state and local activities associated with the Older Americans Act. As a result of the 1973 amendments to the Older Americans Act, states must designate planning and service areas to develop and implement programs and services for older persons at the local level. Missouri has ten Area Agencies on Aging (AAAs), each responsible for providing services and overseeing programs within specifically defined geographic boundaries. Within the mandates of the act, priority is given to serving older adults in the greatest social and economic need, with a focus on serving low-income and minority elderly. Under the direction of the bureau chief, staff:

- Conducts periodic monitoring reviews of the local programs to verify compliance with state and federal guidelines and to validate program and service effectiveness.
- Provides training and technical assistance to AAA staff members and their boards as requested, keeping them apprised of new developments in the aging field and federal and state policies and procedures.

Each AAA is allowed flexibility in providing the services most needed within its planning and service area. Each AAA:

- Is required to submit an area plan for review and approval in order to receive funding to carry out various provisions of the Older Americans Act at the local level.
- Administers the nutrition program—both congregate and home-delivered meals—and nutrition education activities.
- Provides funding for access services, legal services and in-home services. Access services include transportation and Information and Assistance (I&A) and general outreach and advocacy activities. (In-home services include homemaker chore, personal care and respite.)
- Provides services to encourage the employment of older workers, services to support family caregivers, ombudsman services, information about the prevention of abuse, neglect and exploitation of seniors and issues relating to elder justice.
- May also provide one or more of the following services: minor home modification, counseling, adult day care, evidence-based disease prevention and health promotion activities, telephone reassurance, friendly visiting, case management and volunteer recruitment.

LONG-TERM CARE OMBUDSMAN PROGRAM

An ombudsman is someone who “speaks on behalf of another.” Through the work of regional ombudsman coordinators (who are employees or contractors of the Area Agencies on Aging) and many volunteers, residents and their families receive assistance with questions and are empowered to resolve complaints. The program also provides educational forums and information to the public regarding issues dealing with long-term care facilities.
