EMERGENCY AMENDMENT

19 CSR 20-20.020 Reporting Infectious, Contagious, Communicable, or Dangerous Diseases. The department is amending sections (6) and (8).

PURPOSE: This amendment modifies COVID-19 test result reporting.

PURPOSE: This rule designates the diseases which are infectious, contagious, communicable or dangerous and must be reported to the local health authority or the Department of Health and Senior Services. It also establishes when they must be reported.

EMERGENCY STATEMENT: The Department of Health and Senior Services (“DHSS”) determined that this emergency amendment is necessary to protect the public health, safety, and welfare of Missouri residents and visitors.

This emergency amendment is necessary to help accurately track COVID-19 infection the state of Missouri. In order to track positivity rates of COVID-19 tests and other trending information, the Department needs to receive all negative test results in addition to positive test results. Additionally, and in order to be efficient, requiring all COVID-19 results (whether negative or positive) be sent to the Department ensures that the results are compiled in an accurate and timely manner. Finally, the Federal Government requests daily uploads of the Department’s COVID-19 data, which includes both positive and negative test results reported for that specific day. This emergency amendment allows the Department to provide that data to the Federal Government in a timely manner.

DHSS needs this emergency amendment to ensure that COVID-19 testing results remain consistent with the protocol in place since the State of Emergency was declared in March 2020. This emergency amendment requires that all test results for COVID-19 (whether negative or positive) are sent to the Department.

DHSS finds that there is an immediate danger to the public health, safety or welfare, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. DHSS believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed January 3, 2022, becomes effective January 18, 2022, and expires July 16, 2022.
(6) A physician, physician’s assistant, nurse, hospital, clinic, or other private or public institution providing diagnostic testing, screening or care to any person with any disease, condition, or finding listed in sections (1)–(4) of this rule or who is suspected of having any of these diseases, conditions, or findings, shall make a case report to the local health authority or the Department of Health and Senior Services, or cause a case report to be made by their designee, within the specified time. All testing results for COVID-19, whether negative or positive, shall be reported to the Department of Health and Senior Services.

(8) Any person in charge of a public or private school, summer camp, or child or adult care facility shall report to the local health authority or the Department of Health and Senior Services the presence or suspected presence of any diseases or findings listed in sections (1)–(4) of this rule according to the specified time frames. All testing results for COVID-19, whether negative or positive, shall be reported to the Department of Health and Senior Services.
