

Missouri Resident Heart Disease Profile

Indicator	Rate Denominator & Constant	Rate Type
Risk factors for heart disease among adults 18 years and older		
County Level Study		
High blood pressure	per 100 population	weighted percent
Diabetes	per 100 population	weighted percent
Obesity	per 100 population	weighted percent
Overweight	per 100 population	weighted percent
Current High cholesterol	per 100 population	weighted percent
Current smoking	per 100 population	weighted percent
Secondhand smoke in home	per 100 population	weighted percent
Secondhand smoke at work	per 100 population	weighted percent
Physical inactivity	per 100 population	weighted percent
Low fruit and vegetable intake	per 100 population	weighted percent
BRFSS		
Heavy drinking	per 100 population	weighted percent
Heavy drinking among males	per 100 population	weighted percent
Heavy drinking among females	per 100 population	weighted percent
Angina or coronary heart disease	per 100 population	weighted percent
Incorrectly answered signs and symptoms of heart attack	per 100 population	weighted percent
Heart attack (myocardial infarction) prevalence		
Adults age 18 and older	per 100 population	weighted percent
<i>18-44</i>	per 100 population	weighted percent
<i>45-54</i>	per 100 population	weighted percent
<i>55-64</i>	per 100 population	weighted percent
<i>65+</i>	per 100 population	weighted percent
Annual household income		
<i>Less than \$15,000</i>	per 100 population	weighted percent
<i>\$15,000-\$49,999</i>	per 100 population	weighted percent
<i>\$50,000+</i>	per 100 population	weighted percent
Educational attainment		
<i>Less than high school</i>	per 100 population	weighted percent
<i>High school/GED</i>	per 100 population	weighted percent
<i>Post high school</i>	per 100 population	weighted percent

Missouri Resident Heart Disease Profile

Indicator	Rate Denominator & Constant	Rate Type
Gender		
<i>Male</i>	per 100 population	weighted percent
<i>Female</i>	per 100 population	weighted percent
Race		
<i>White</i>	per 100 population	weighted percent
<i>Black/African-American</i>	per 100 population	weighted percent
Mortality/PAS (Hospitalization and ER indicators)		
Mortality		
Heart disease	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Acute myocardial infarction (MI)	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Congestive heart failure	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Hospitalizations		
Heart disease	per year per 10,000 population	age-adjusted to the U.S. 2000 standard population
Congestive heart failure	per year per 10,000 population	age-adjusted to the U.S. 2000 standard population
Acute myocardial infarction	per year per 10,000 population	age-adjusted to the U.S. 2000 standard population
<i>ST elevation MI (STEMI)</i>	per year per 10,000 population	age-adjusted to the U.S. 2000 standard population
<i>Non-ST elevation MI (NSTEMI)</i>	per year per 10,000 population	age-adjusted to the U.S. 2000 standard population
Emergency room visits		
Heart disease	per year per 1,000 population	age-adjusted to the U.S. 2000 standard population
Congestive heart failure	per year per 1,000 population	age-adjusted to the U.S. 2000 standard population
Acute myocardial infarction	per year per 1,000 population	age-adjusted to the U.S. 2000 standard population
<i>ST elevation MI (STEMI)</i>	per year per 1,000 population	age-adjusted to the U.S. 2000 standard population
<i>Non-ST elevation MI (NSTEMI)</i>	per year per 1,000 population	age-adjusted to the U.S. 2000 standard population
Hospitalization Utilization indicators		
Diseases of the heart		
<i>Total charges</i>	-	-
<i>Total days of care</i>	-	-
Congestive heart failure		
<i>Total charges</i>	-	-
<i>Total days of care</i>	-	-
Myocardial infarction		
ST elevation MI (STEMI)		
<i>Total charges</i>	-	-

Missouri Resident Heart Disease Profile

Indicator	Rate Denominator & Constant	Rate Type
<i>Total days of care</i>	-	-
Discharge status @		
<i>Home</i>	per 100 population with a STEMI discharge status	crude rate
<i>Other LTC facility</i>	per 100 population with a STEMI discharge status	crude rate
<i>Rehabilitation</i>	per 100 population with a STEMI discharge status	crude rate
<i>Died</i>	per 100 population with a STEMI discharge status	crude rate
Non-ST elevation MI (NSTEMI)		
<i>Total charges</i>	-	-
<i>Total days of care</i>	-	-
Discharge status @		
<i>Home</i>	per 100 population with a NSTEMI discharge status	crude rate
<i>Other LTC facility</i>	per 100 population with a NSTEMI discharge status	crude rate
<i>Rehabilitation</i>	per 100 population with a NSTEMI discharge status	crude rate
<i>Died</i>	per 100 population with a NSTEMI discharge status	crude rate
