

Missouri Resident Leading Causes of Death Profile

Indicator	Rate Denominator & Constant	Rate Type
Leading Causes of Death		
All Causes	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Heart Disease	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
All Cancers (Malignant Neoplasms)	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Lung Cancer	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Breast Cancer	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Colorectal Cancer	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Chronic Lower Respiratory Disease	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Stroke/Other Cerebrovascular Disease	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Total Unintentional Injuries	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Accidental Poisoning	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Motor Vehicle Accidents	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Alzheimer's Disease	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Diabetes Mellitus	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Pneumonia and Influenza	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Kidney Disease (Nephritis and Nephrosis)	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Suicide	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Septicemia	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Chronic Liver Disease and Cirrhosis	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Other Causes of Interest		
Smoking-Attributable (estimated)	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
All Injuries and Poisonings	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Homicide	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Alcohol-Induced Deaths	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Drug-Induced Deaths	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Accidental Drug Poisonings	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
Injury by Firearms	per year per 100,000 population	age-adjusted to the U.S. 2000 standard population
