Engagement in HIV Care, Missouri, 2013

Total and By Sex
11,584 living with HIV disease, Missouri, 2013*:
-2,002 females
-9,582 males

By Selected Age Group
Living with HIV disease, Missouri, 2013*:
-604 persons 13-24 years old
-4,570 persons 25-44 years old
-6,374 persons 45+ years old

By Selected Race/Ethnicity
Living with HIV disease, Missouri, 2013*:
-5,261 blacks/African Americans (AA)
-481 Hispanics
-5,659 whites

By Selected Transmission Category
Living with HIV disease, Missouri, 2013*:
-1,619 heterosexual contact (HRH)
-647 injection drug use (IDU)
-7,178 men who have sex with men (MSM)

This figure provides estimates of engagement in HIV care among persons diagnosed and living with HIV whose most recent diagnosis of HIV or stage 3 (AIDS) occurred in Missouri. Data presented may change if methods to generate the estimates are altered. Data columns for diagnosed, linked to care, retained in care, and virally suppressed are calculated independently, and therefore should not be interpreted as related measures. Extreme caution should be used when comparing with data from other jurisdictions as the populations included and methods used to calculate the various measures may vary significantly.

Prepared by: Missouri Department of Health and Senior Services (DHSS), Bureau of Reportable Disease Informatics

*Number of adults and adolescents (i.e., 13 years of age or older) who resided in Missouri at the time of their most recent diagnosis of HIV or stage 3 (AIDS) who were known to be living at the end of 2013. Source: DHSS. Annual eHARS datasets frozen 2/28/15.
†Derived from adults and adolescents newly diagnosed with HIV disease in Missouri in 2013 with a CD4 or viral load lab result within three months of diagnosis. Source: DHSS. Annual eHARS dataset frozen 2/28/15.
‡Derived from adults and adolescents diagnosed with HIV through 2012 and living in 2013 who resided in Missouri at the time of their most recent diagnosis of HIV or stage 3 (AIDS) who had at least two CD4 or viral load lab results in 2013 which were collected at least 3 months apart. Source: DHSS. Annual eHARS dataset frozen 2/28/15.
§Derived from adults and adolescents diagnosed with HIV through 2012 and living in 2013 who resided in Missouri at the time of their most recent diagnosis of HIV or stage 3 (AIDS) who were considered to be retained in care and whose most recent viral load lab result in 2013 was 200 copies/ml or less. Source: DHSS. Annual eHARS dataset frozen 2/28/15.
ΩDerived from adults and adolescents diagnosed with HIV through 2012 and living in 2013 who resided in Missouri at the time of their most recent diagnosis of HIV or stage 3 (AIDS) who were not considered to be retained in care, but whose most recent viral load lab result in 2013 was 200 copies/ml or less. Source: DHSS. Annual eHARS dataset frozen 2/28/15.

Presence of a symbol above a bar indicates that the measurement should be interpreted with extreme caution as the measurement was calculated among fewer than 20 cases in the denominator. Bars and percentages are not shown if there were no cases in the denominator.
Engagement in HIV Care, Central HIV Care Region, 2013

By Selected Race/Ethnicity
Living with HIV disease, Central HIV Care Region, 2013*:
-139 blacks/African Americans (AA)
-30 Hispanics
-366 whites

By Selected Age Group
Living with HIV disease, Central HIV Care Region, 2013*:
-20 persons 13-24 years old
-223 persons 25-44 years old
-295 persons 45+ years old

By Selected Transmission Category
Living with HIV disease, Central HIV Care Region, 2013*:
-105 heterosexual contact (HRH)
-33 injection drug use (IDU)
-275 men who have sex with men (MSM)

This figure provides estimates of engagement in HIV care among persons diagnosed and living with HIV whose most recent diagnosis of HIV or stage 3 (AIDS) occurred in the Central HIV Care Region. Data presented may change if methods to generate the estimates are altered. Data columns for diagnosed, linked to care, retained in care, and virally suppressed are calculated independently, and therefore should not be interpreted as related measures.
