Commercial	113	\$ 11,987,231
Other	8	\$ 181,285

Source: Bureau of Health Care Analysis and Data Dissemination, Missouri Department of Health and Senior Services

Total healthcare charges for NAS cases decreased in 2017 but rebounded in 2018. However, the average length of stay has been declining steadily.

* Charts displaying NAS data for length of stay, charges, and insurance payer are based upon total discharges during the first 28 days of life; so potentially multiple records for the same child are included in these statistics. Note that not all the NAS cases have associated charges.
