The Enhanced State Opioid Overdose Surveillance (ESOOS) grant was awarded to the Missouri Department of Health and Senior Services (MODHSS) to accomplish key goals:

--enhance the comprehensiveness and timeliness of both fatal and nonfatal opioid overdoses and;
--disseminate surveillance findings to stakeholders.

If you or a loved one has a problem with alcohol or drugs, please call:

The ESOOS grant was awarded to the Missouri Department of Health and Senior Services (MODHSS) to accomplish key goals:

--enhance the comprehensiveness and timeliness of both fatal and nonfatal opioid overdoses and;
--disseminate surveillance findings to stakeholders.

5.5% INCREASE (from 2016)

Nonfatal Opioid Overdose Health Care Utilization
January 2017- June 2018

Above: Nearly 65% of nonfatal opioid overdose discharges seen in the ER involved heroin. In St Louis County, most of the people discharged from the ER with nonfatal overdoses were male (70%) and between the ages of 25-34.

Below: When fatal overdoses occur in St Louis County, they most often occur in a house or apartment (84%) and emergency medical services are frequently present (94%).

Fatal Overdose Location
January 2017- December 2017

In St Louis County, many who fatally overdose have some history of substance abuse (70%) and nearly one-fifth have overdosed previously. Fatal overdoses sometimes happen alone with no bystander present (36%), though EMS is nearly always present post-event (94%). Many overdoses indicate polysubstance abuse, including use of benzodiazepines (27%). Unfortunately, substance abuse treatment is indicated in less than 15% of those who fatally overdose.

This data sheet provides the most timely data available for each topic, meaning data is subject to change and time periods for different variables may not align. This data uses ESOOS specific definitions for opioid overdose, which may result in frequencies that do not match other data sources.

Please contact the Missouri Department of Health and Senior Services, Bureau of Health Care Analysis and Data Dissemination at 573-751-6285 for more information or to request a fact sheet for your community.
