Tyler,

Since the unit has been deactivated and currently undergoing de-installation, does this mean the unit is no longer located within the building?

Hi Mackinzey – The existing unit was deactivated in September 2023, and the de-install began in May 2024.

Tyler,

After review of your application, I have some additional questions.

- How long has the existing unit not been in use?
- Is the existing unit still within the building?

This information is needed by Monday, July 1, 2024.
