Re: Voluntary Forfeiture of CON – Project #6184 HS: Select Specialty Hospital – St. Louis

Dear Ms. Dorge:

Intensiva Hospital of Greater St. Louis, Inc., as owner and operator of Select Specialty Hospital-St. Louis, hereby voluntarily forfeits the Certificate of Need granted to it on May 5, 2025 for Project #6184 for the establishment of a 60-bed long term care hospital at 4930 Lindell Blvd., St. Louis, MO 63108. Costs identified since approval have rendered the project infeasible. Applicant has therefore determined not to proceed with the project..

We understand this voluntary forfeiture must be approved at an in-person meeting, but our attendance is not required. As such, we will not have a representative present at the meeting. We appreciate the time and consideration provided by the CONP Staff and the Committee in considering this project.

Sincerely,

J. Tyler Hollenbach  
Executive Vice President, Strategy & Growth
