Planning and Occupancy Documentation Proposal

Dear K.C.,

We appreciate the opportunity to submit this proposal for Architectural Occupancy Documentation services for the above-mentioned project. We understand the intent of the scope of work is to obtain DHSS Approval and to occupy the second level of the facility to allow decompression of the existing LTACH located on the first level of the facility. It is not anticipated that architectural or engineering renovations will be required and if required and therefore are not included as services offered with this proposal. In the event that Architectural and / or Engineering Services are required for reasons outside the control of TKH, a separate proposal for such services will be submitted to Select Medical for written approval and authorization to proceed in advance of commencing work.

We appreciate this opportunity to submit this proposal and welcome any questions. Sincerely,

Mohael Tohahan Gol

DIVIDER II: PROPOSAL DESCRIPTION

Divider II: Proposal Description:

1. Provide a complete detailed project description.

Intensiva Hospital of Greater St. Louis Inc. owns and operates Select Specialty Hospital – St. Louis ("<u>SSH St. Louis</u>" or "<u>Applicant</u>") located at 300 First Capitol Drive, St. Charles, Missouri 63301. SSH St. Louis is a long-term acute care hospital ("<u>LTCH</u>") currently licensed for thirty-three (33) beds. SSH St. Louis cares for patients with a prolonged need for an acute level of care. SSH St. Louis has specialized staff and resources designed to support chronically ill patients in their recovery journey and facilitate their return home. This hospital-in-a-hospital setting provides a unique care model that is proximate to available services SSM Health St. Joseph Hospital, a general acute care hospital.

SSH St. Louis is currently licensed for thirty-three (33) beds with six (6) semi-private/dual occupancy patient rooms and twenty-one (21) private patient rooms. Applicant is seeking to add ten (10) beds to its existing license for a total of forty-three (43) LTCH beds.

Applicant will operate the 10 additional beds as part of its "hospital within a hospital" on the 2nd floor directly above the current 1st floor operation. Applicant recently expanded its lease to include the 2nd floor space where the 10 additional beds will be located. No physical expansion of the existing structure is required but the space will be renovated for purposes of operating the additional licensed beds. Applicant will maintain its existing operations on the 1st floor and operate the 10 additional beds on the 2nd floor as private patient rooms.

The additional 10 beds will play a pivotal role in addressing the growing healthcare needs of the western side of the greater St. Louis metropolitan area and St. Charles, Warren and Lincoln counties. As St. Charles, Warren, and Lincoln counties are experiencing sustained population growth, these new LTCH beds will provide much-needed capacity to meet the rising demand for LTCH services in these areas. By adding these 10 beds, SSH St. Louis will enhance its ability to provide more private, personalized, high-quality care to patients who require extended stays for acute medical treatment. This expansion will help reduce strain on existing facilities and ensure that residents of these growing counties have access to timely and effective care. Furthermore, the new beds will support efforts to minimize patient transfers to facilities located farther away, thereby improving continuity of care and patient outcomes across the region.

LTCHs serve a critical role in comprehensive healthcare delivery. Through specialized treatment programs and staffing models, SSH St. Louis treats patients with acute, highly complex, and specialized needs. Treatment programs focus on specific patient needs and medical conditions, such as physical rehabilitation, ventilator weaning protocols, comprehensive wound care assessments and treatment protocols, medication review and antibiotic stewardship, infection control prevention, and customized mobility, speech, and swallow programs. Staffing models seek to ensure that patients have the appropriate clinical resources over the course of their stay. SSH St. Louis maintains quality assurance programs to support and monitor quality of care standards and to meet regulatory requirements and maintain Medicare certifications.

Select Specialty Hospital-St. Louis is the only LTCH operating in St. Charles County. The next nearest LTCHs west of St. Charles are located over 80 miles away in Springfield, MO and Columbia, MO. There is one other LTCH within the 15-mile radius of SSH St. Louis's St. Charles location which is Select Specialty Hospital – Town and Country ("SSH T&C"), which is

currently licensed for 38 beds. SSH T&C has received CON approval to relocate to the Christian Hospital campus and reduce its bed count to 28 LTCH beds.

Applicant is seeking additional LTCH beds to support patient needs across the greater St. Louis metropolitan area and the growing population in St. Charles, Lincoln and Warren counties. The approval of 10 additional LTCH beds will allow Applicant to serve more patients and provide private rooms for patients who need LTCH services closer to the communities where the patients live, which will enhance the patient/family experience and quality outcomes.

2. Provide a timeline of events for the project, from issuance of the CON through project completion.

Upon receipt of Certificate of Need (anticipated decision July 2025):

- Calibration and Training: 4 weeks
 - o Includes staff orientation, onboarding, policy/procedure review, surveys, inspections, etc.
 - Due to the limited nature of the construction/repair/maintenance work required for the 10 additional LTCH beds, it is anticipated that Applicant can move quickly into training and preparation of first patient upon receipt of CON.
- First Patient: Anticipated September 2025

The timeline is subject to issuance of CON and licensure inspections/survey schedules and availability prior to admitting first patient.

3. Provide a legible city or county map showing the exact location of the proposed facility.

See Attachment II.3.

4. Provide a site plan for the proposed facility.

See Attachment II.4.

5. Provide preliminary schematic drawings for the proposed project.

See Attachment II.5.

6. Provide evidence that architectural plans have been submitted to DHSS.

See Attachment II.6. The nature of this renovation does not require architectural plans, but discussions with DHSS are ongoing with respect to the renovations and life-safety plans for the space.

7. Provide the proposed gross square footage.

The proposed gross square footage of the proposed 10 bed expansion space is 7,650 square feet.

8. Document ownership of the project site, or provide an option to purchase.

Applicant is currently leasing the premises from SSM Health Care St. Louis through November 30, 2027 and has an option to renew at the end of the current term. See **Attachments II.8.**

9. Define the community to be served.

The community to be served will be all LTCH appropriate patients in the greater St. Louis metropolitan area and St. Charles, Warren and Lincoln counties. Due to its location on the west side of the Missouri River, our experience has been that the majority of patients treated at SSH St. Louis reside in St. Charles, Lincoln, and Warren counties and the north/western areas of St. Louis county.

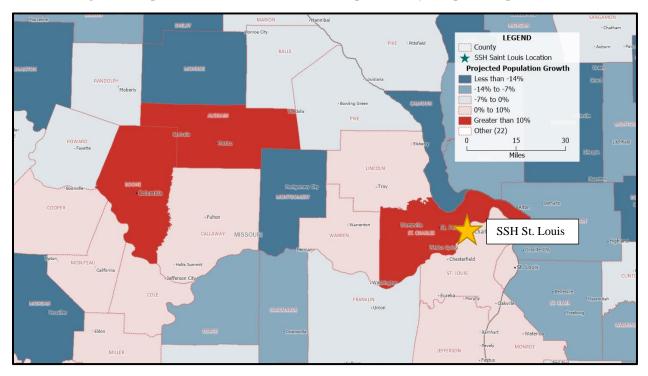

10. Provide the projected population for the 15-mile radius service area

Based on the population data provided by DHSS, the estimated 2030 population for the 15-mile radius service area around SSH St. Louis is **967,449**. The 15-mile radius service area includes portions of St. Charles, St. Louis, and Lincoln counties, and a small portion of the western edge of the City of St. Louis.

Based on other studies, St. Charles, Lincoln, and Warren counties are projected to see year-over-year increases in population. Per the Office of Administration Division of Budgeting and Planning and the State of Missouri statistics, 2035 population growth is projected as follows:

- St. Charles County: >470,000 - Lincoln County: >65,000 - Warren County: >46,000

The map below shows the projected population growth by county, expressed as a percentage change, for the period 2020 to 2035. Statistics are provided by Caliper's Maptitude software.

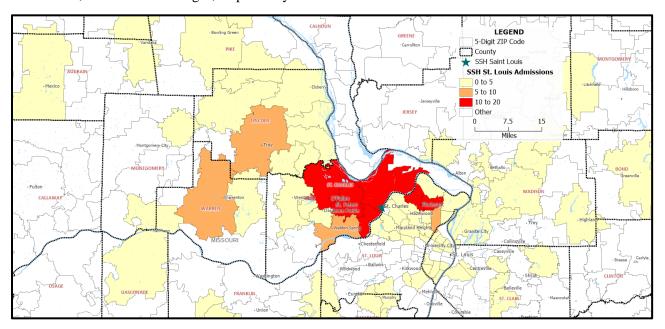

11. Identify specific community problems or unmet needs the proposal would address.

There is currently a need for LTACH beds in the 15-mile radius surrounding SSH St. Louis's St. Charles facility, and that need will increase when SSH T&C reduces its bed count.

SSH St. Louis has historically run a high occupancy rate exceeding 80%. Applicant is often limited to admissions with the current configuration of 6 semi-private rooms due to "germ and gender" admission requirements and the inability to fully optimize the dual-occupancy/semi-private rooms. With the additional 10 private LTCH beds added to SSH St. Louis, applicant will have greater capacity and flexibility to care for more patients who require the LTCH level of care, with the new beds adding more capacity for patients to have private rooms.

Year	Occupancy Rate (%)
2022	87.8%
2023	91%
2024	84.2%
2025 (YTD through March)	81.2%

The population in the St. Charles and surrounding counties is projected to continue its growth year over year. The heat map below illustrates SSH St. Louis discharges for the trailing twelve months ending March 31, 2025. The yellow, orange, and red shading highlights patient origin zip codes, indicating where current SSH St. Louis patients reside. Of the 293 discharges during this period, 27% were from zip codes within St. Louis County, making it the leading source of patients. Close behind is St. Charles County, accounting for 26% of discharges. The next largest contributing areas are Lincoln County, Madison County (Illinois), and Saint Louis City at 6%, 5%, and 5% of discharges, respectively.

SSM St. Joseph Hospital West and SSM St. Joseph Hospital have historically accounted for over 20% of SSH St. Louis's admissions. As population continues to grow to the west of the metropolitan St. Louis area, it is anticipated that the admission and volume will increase from SSM St. Joseph Hospital and SSM St. Joseph Hospital West.

Additionally, we analyzed MedPar data from our host hospital, SSM St. Joseph Hospital, to better understand the patient origins of the facility. This data reflects Medicare discharges for the twelve months ending June 30, 2024. As shown in the chart below, the majority of patients discharged

from SSM St. Joseph Hospital reside in St. Charles County. This further supports our recommendation to add 10 LTCH beds in the St. Charles County market to meet the needs of its growing community.

12. Provide historical utilization for each of the past three (3) full years and utilization projections through the first three (3) full years of operations of the new LTCH beds.

Year	Patient Days
2022	10,316
2023	10,417
2024	9,938

Year	Projected Patient Days
2026	10,242
2027	10,607
2028	10,972

13. Provide the methods and assumptions used to project utilization.

Methods and assumptions used for utilization are based on Applicant's history of provided LTCH services across the greater St. Louis market and the St. Charles market, and its understanding of the community needs considering the market reduction in LTCH beds in service.

Given the utilization of the other LTCHs in the greater St. Louis market, there is a need for more beds to be in operation to continue adequately serving the patient population.

The 10 additional LTCH beds at SSH St. Louis will help meet the continued need of LTCH care while accounting for the future reduction of operational LTCH beds at SSH T&C.

14. Document that consumer needs and preferences have been included in planning this project and describe how consumers had an opportunity to provide input.

St. Charles County only has one LTCH provider with SSH St. Louis's current 33 bed LTCH. Adding 10 LTCH beds to St. Charles County will help bridge the gap in the greater St. Louis community. See **Attachment II.14** which is a copy of the public notice concerning Applicant's plan to add 10 beds to SSH St. Louis.

15. Provide copies of any petitions, letters or support or opposition received.

See Attachments II.15.

16. Document that providers of similar health services in the proposed 15-mile radius have been notified of the application by a public notice in the local paper.

The only LTCH operating within a 15-mile radius SSH St. Louis is SSH T&C. SSH T&C is wholly-owned and operated by Applicant (Intensiva Hospital of Greater St. Louis, Inc.) and therefore does not require notification via public notice in the local paper.

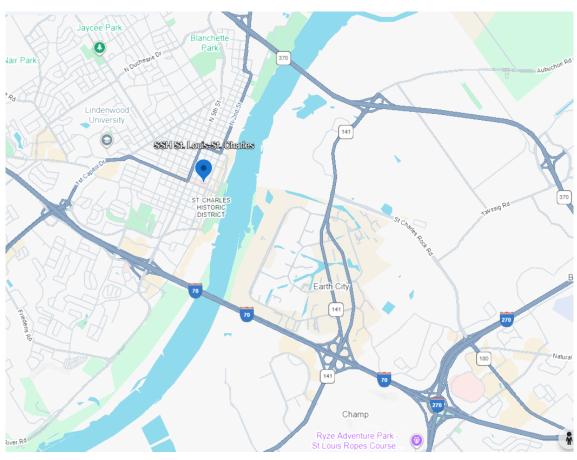

17. Document that providers of all affected facilities in the proposed 15-mile radius were addressed letters regard this application.

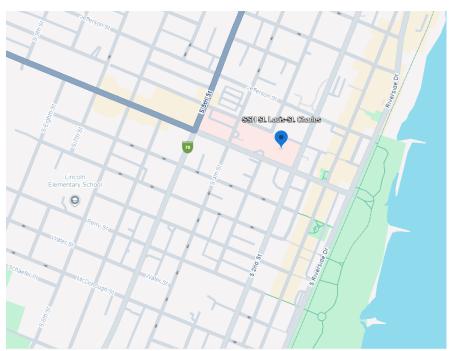

The only LTCH operating within a 15-mile radius SSH St. Louis is SSH Town and Country. SSH Town and Country is wholly-owned and operated by Applicant (Intensiva Hospital of Greater St. Louis, Inc.) and therefore does not require formal notification. A public notice was published in the St. Louis Post Dispatch on May 2, 2025. See **Attachment II.14.**

Good morning! Your project number is H-2073. Please reference this number in future communications regarding this project. The Engineering Consultation Unit (ECU) will complete the initial plan review and construction inspections. Then, a Life Safety Code (LSC) surveyor will complete the 100% licensure inspection. Depending on the project details, a nurse surveyor may also be at the 100% inspection. Please see attached for the current state inspection process and construction tracking form. These are the most current forms to be used on future projects. Per the Steps for State Inspection Process, your next step is step #3. Please let us know if you have any questions.

Thank you.

LEASE AGREEMENT

THIS LEASE AGREEMENT ("Lease") is made and entered into as of the 1st day of December, 2019, by and between SSM HEALTH CARE ST. LOUIS, a Missouri non-profit corporation, owning and operating, SSM HEALTH ST. JOSEPH HOSPITAL – ST. CHARLES ("Landlord"), and INTENSIVA HOSPITAL OF GREATER ST. LOUIS, INC., a Missouri corporation, d/b/a SELECT SPECIALTY HOSPITAL – ST. LOUIS ("Tenant").

WITNESSETH, THAT:

WHEREAS, Landlord owns and operates an acute care hospital (the "Host Facility") located at 300 First Capital Drive, St. Charles, Missouri 63301-2844 and known as SSM Health St. Joseph Hospital – St. Charles. The Host Facility includes approximately 18,817 square feet of space known as Wing 1A and 1B of the Host Facility, Room G342 and Office Space Room 1413 with room for not less than thirty-three (33) licensed beds and for related support services and administrative facilities as required for state licensure (such additional space containing at least 1,500 square feet and an on-site storage facility which is easily accessible) (collectively, the "Premises"). The Premises is depicted on the space plan attached hereto as Exhibit A. The address of the Premises and the Hospital (as hereinafter defined) to be operated therein is 300 First Capital Drive, St. Charles, Missouri 63301-2844.

WHEREAS, Landlord desires to lease to Tenant, and Tenant desires to lease from Landlord, the Premises for the establishment and operation of a long-term care hospital (the "Hospital") to be operated in compliance with 42 C.F.R. 412.22(e)(5)(ii) (addressing situations where a hospital is operating within another hospital), subject to the terms and conditions hereinafter set forth.

NOW, THEREFORE, in consideration of the rent and the conditions, covenants, and agreements contained herein, and for other good and valuable consideration, the parties agree as follows:

1. <u>PREMISES AND USE</u>. Upon and subject to the terms, provisions, and conditions of this Lease, Landlord hereby leases to Tenant, and Tenant hereby leases from Landlord, the Premises. The Premises shall be used for the purpose of operating a long-term acute care hospital and related facilities.

2. TERM AND TERMINATION.

- 2.1 <u>Initial Term.</u> This Lease shall be for an initial term of five (5) years (the "Initial Term") commencing on December 1, 2019 (the "Commencement Date"), and ending on November 30, 2024 (the "Expiration Date").
- 2.2 Renewal Term. Tenant shall have the option to renew this Lease for two (2) additional three (3) year terms (each, a "Renewal Term"), commencing on the date the Initial Term or the first Renewal Term, as applicable, expires. Tenant may exercise such option by delivering written notice to Landlord six (6) months prior to the end of the Initial Term or the first Renewal Term, as applicable. Except as otherwise provided in this Lease, Tenant's leasing of the Premises

97139488.9

during each Renewal Term shall be subject to the same terms, covenants and conditions set forth in this Lease. The phrase "Term hereof", as used herein, shall mean and include the Initial Term and any Renewal Term, to the extent that this Lease is renewed as provided herein.

- 2.3 <u>Termination</u>. This Lease shall terminate upon expiration of the Initial Term or the first Renewal Term if Tenant does not give the notice to renew this Lease for a Renewal Term as described in Section 2.2 hereof.
- 3. RENT. During the Initial Term, Tenant shall pay to Landlord rent in the amount of Fifty Four Thousand Eight Hundred Eighty Two and 92/100 Dollars (\$54,882.92) per month (\$35.00 per square foot per year) during the first (1st) Lease Year; Fifty Five Thousand Nine Hundred Eighty and 58/100 Dollars (\$55,980.58) per month (\$35.70 per square foot per year) during the second (2nd) Lease Year; Fifty Seven Thousand Ninety Three and 91/100 Dollars (\$57,093.91) per month (\$36.41 per square foot per year) during the third (3rd) Lease Year; Fifty Eight Thousand Two Hundred Thirty Eight and 62/100 Dollars (\$58,238.62) per month (\$37.14 per square foot per year) during the third (4th) Lease Year; and Fifty Nine Thousand Three Hundred Ninety Nine and 00/100 Dollars (\$59,399.00) per month (\$37.88 per square foot per year) during the third (5th) Lease Year (together with all other amounts due hereunder, the "Rent" or "rent").

Rent for the Renewal Term(s), if Tenant exercises its option to renew as set forth in Section 2.2, shall be the then fair market rental value of the Premises as established by a fair market rental appraisal prepared by an independent third party appraiser with not less than five (5) years' experience appraising rental rates for clinical medical space. Landlord and Tenant shall jointly appoint the appraiser not less than four (4) months prior to the expiration of the Initial Term and shall share the costs of the appraisal equally. If the parties cannot agree on an appraiser, each of Landlord and Tenant shall, not less than three (2) months prior to the expiration of the Initial Term, appoint an appraiser meeting the qualifications set forth in this paragraph, and the two (2) appraisers shall jointly appoint a third appraiser meeting such qualifications to determine the fair market rent for the Premises. In such event, Landlord and Tenant shall each pay the fees of the appraiser appointed by it, and shall each pay one-half of the fees of the third appraiser. The third appraiser shall appraise the Premises within thirty (30) days after his or her appointment to determine its fair market rental value. If either Landlord or Tenant fails to appoint an appraiser within the time frame set forth above, the fair market rental value of the Premises shall be determined solely by the appraiser appointed by the other party.

Tenant shall pay Rent without advance notice, demand, offset, or deduction by the first day of each month during the Term of this Lease to Landlord at SSM Health St. Joseph Hospital – St. Charles, c/o Select Specialty Hospital Lease, 1195 Corporate Lake, St. Louis, MO 63132, or as Landlord may specify in writing to Tenant.

If the Term does not begin on the first day or end on the last day of a month, the Rent for that partial month shall be prorated by multiplying the monthly Rent by a fraction, the numerator of which is the number of days of the partial month included in the Term and the denominator of which is the total number of days in the full calendar month. If Tenant fails to pay part or all of the Rent within ten (10) days after receipt of notice from Landlord of such failure, the Tenant shall also pay a late charge equal to 1 percent of the unpaid Rent.

4. <u>OBLIGATIONS OF TENANT</u>.

- 4.1 <u>Compliance with Law</u>. Tenant shall not use or permit the use of the Premises or any part thereof for any purposes forbidden by law or ordinance now in force or hereafter enacted in respect to the use or occupancy of the Premises.
- 4.2 <u>Access</u>. Tenant shall give access to Landlord or its representatives, at all reasonable times to enter upon the Premises to examine the condition thereof and make such repairs as may be required pursuant to this Lease.
- 4.3 <u>Preservation of Premises</u>. Tenant shall use reasonable diligence in the care and protection of the Premises during the Term hereof. Throughout the Lease Term, Tenant shall keep the Premises free from waste or nuisance.
- 4.4 <u>Licensure, Certification and Accreditation</u>. RE: Select Specialty Hospital – St. Louis, Project # 6199 HS – 10-Bed Addition Long Term Care Hospital Facility in St. Charles

Dear Ms. Dorge,

SSM Health supports efforts by Select Medical to add 10 additional LTCH beds to its location at 300 1st Capitol Drive, St. Charles, MO 63301, located inside SSM Health St. Joseph Hospital St. Charles. Select Specialty Hospital – St. Louis provides a vital need for a specialized level of care to the greater St. Charles community.

Select Specialty Hospital - St. Louis has consistently demonstrated excellence in providing high-quality care to patients with complex medical needs. The addition of these 10 LTCH beds will significantly help fulfill the community's ongoing need for this specialized level of care. As the St. Charles County population grows, this expansion is essential to meet the growing demand for long-term care services in our region.

The closure of Kindred St. Louis's 60-bed LTCH operation leaves limited options across St. Charles and St. Louis Counties for LTCH services. 10 additional beds at a proven and quality-focused operator such as Select Specialty Hospital – St. Louis will be necessary to help meet the community needs.

Sincerely,

Jake Brooks | President

DIVIDER III: SERVICE SPECIFIC CRITERIA AND STANDARDS	}

DIVIDER III: SERVICE SPECIFIC CRITERIA AND STANDARDS

1. For ICF/SNF beds, address the population-based bed need methodology of fifty-three (53) beds per one thousand (1,000) population age sixty-five (65) and older.

Not applicable.

2. For RCF/ALF beds, address the population-based need methodology of twenty-five (25) beds per one thousand (1,000) population age sixty-five (65) and older.

Not applicable.

3. For LTCH beds, address the population-based bed need methodology of one-tent (0.1) bed per one thousand (1,000) population

Based on population statistics provided by the State of Missouri for 2030, bed need methodology is as flows:

- Service Area: 15-mile radius around Zip Code 63301 (includes portions of City of St. Louis, St Louis, St. Charles Counties, and a limited portion of Lincoln County). See **Attachment III.3** which reflects the 2030 projected population.
- 2030 Population: 967,449

o Population / 1,000 = 967

o Beds Needed: 1,229 x .1 = 97

- Current LTCH Bed Count in Service Area: 71
 - This includes 38 beds at SSH St. Louis, 38 beds at SSH Town and Country which will be relocating to BJC Christian hospital in 2026 and decreasing its bed count to 28

Based on State of Missouri need methodology calculations, there is a shortage of LTCH beds in the 15-mile service area around SSH St. Louis.

4. Document any alternate need methodology used to determine the need for additional beds such as LTCH, Alzheimer's, mental health, or other specialty beds.

Applicant will operate specialty beds (LTCH). The service is provided in the subject property currently and will continue with approval of Applicant's application. SSH St. Louis will be the only facility providing LTCH services in St. Charles County and within a 15-mile radius following the relocation of SSH Town and Country to Barnes Jewish Christian Hospital.

5. For any proposed facility which is designed and operated exclusively for persons with acquire human immune deficiency syndrome (AIDS) provide information to justify the need for the type of beds being proposed.

Not applicable.

6. IF the project is to add beds to an existing facility, has the facility received a Notice of Noncompliance within the last 18 months as a result of a survey, inspection or complaint investigation? If the answer is yes, explain.

See Attachments III.6. A summary of survey activity over the past 18 months as follows. Applicant addressed and remedied findings from a July 2024 complaint survey.

A. July 29, 2024 – State/Federal Complaint survey. Condition Level Deficiencies received in the area of Infection Control. October 7, 2024 – State/Federal Survey to clear Condition Level

Re: Conditions of Participation (CoPs) Not met

State Survey Jurisdiction

Notice of 90 Day Intent to Termination of Medicare Provider Agreement-Effective 11/25/2024

Dear Administrator:

The Centers for Medicare & Medicaid Services (CMS) has received and reviewed the report of the complaint survey concluding on August 1, 2024, conducted by the Missouri Department of Health and Senior Services (MODHSS). Based on our review of the survey findings, we determined that Select Specialty Hospital St Louis was not in compliance with the following Medicare Conditions of Participation for hospitals.

42 CFR § 482.42 Infection Prevention Control ABX Stewardship A747

The deficiencies identified are listed on the enclosed Form CMS-2567, Statement of Deficiencies. In accordance with Section 1865 of the Social Security Act and implementing regulations at 42 CFR § 488.6, a provider accredited by The Joint Commission (TJC) is deemed to meet Medicare Conditions of Participation. Section 1864(c) of the Act requires the Secretary of Health and Human Services to survey an accredited provider participating in Medicare if there are substantial allegations, which suggest the existence of a significant deficiency or deficiencies which would adversely affect the health and safety of patients.

If, in the course of such a survey, a provider is found not to meet one or more Conditions of Participation and a significant deficiency exists, the provider is no longer deemed to meet the Medicare Conditions of Participation. With notification to the accrediting agency, the provider is then placed under the survey jurisdiction of the State survey agency until the provider is found in compliance with all Medicare Conditions of Participation.

REMOVAL OF DEEMED STATUS

Based on the determination that Select Specialty Hospital St Louis is out of compliance with the above Conditions of Participation and that significant deficiencies exist; your deemed status is removed and survey jurisdiction is transferred to the MODHSS. The Missouri State Survey Agency will retain survey jurisdiction until your facility is in full compliance with all Medicare Conditions of Participation.

TERMINATION OF MEDICARE PROVIDER AGREEMENT

Under 42 CFR §489.53, a hospital that no longer meets the appropriate Conditions of Participation is subject to termination of its provider agreement and participation in the Medicare program. This is a preliminary determination letter and serves to notify Select Specialty Hospital St Louis of the violations. The projected date on which your provider agreement will terminate is November 25, 2024.

PLAN OF CORRECTION/CREDIBLE ALLEGATION OF COMPLIANCE

To avoid CMS termination action and notice to the public, you may either provide a credible allegation or credible evidence of correction for the deficiencies, or successfully prove that the deficiencies did not exist, prior to the projected public information date. An acceptable plan of correction must be submitted to both the Missouri Department of Health and Senior Services and CMS.

MODHSS <u>melodie.brumback@health.mo.gov</u>; <u>christina.marshall@health.mo.gov</u> and

rebekah.stone@health.mo.gov

CMS kimberly.richardson@cms.hhs.gov

An acceptable plan of correction must contain the following elements:

- The plan of correcting the specific deficiencies and how the hospital will act to protect other patients in a similar situation:
- The procedure for implementing the acceptable plan of correction for each specific deficiency cited;
- The monitoring procedure to ensure that the plan of correction is effective and that the specific deficiency cited remains corrected and/or in compliance with the regulatory requirements;
- Dates when the plan of correction will be completed;
- The title of the person responsible for implementing the acceptable plan of correction.

Please submit your plan of correction on enclosed CMS Form 2567 *no later than September 6, 2024*. This plan will be reviewed for content; however only an onsite unannounced survey at your facility shall provide a determination that these areas of non-compliance have been corrected. **Termination can only be averted by correction of these violations by November 25, 2024.**

Divider IV: Financial Feasibility Criteria and Standards

1. Document that the proposed costs per square foot are reasonable when compared to the latest "RS Means Construction Cost data".

RS Means data for 2024 shows third quartile new hospital construction costs to be \$492.50 per square foot in the ST. Louis area. For renovations, the cost per square foot would be \$344.75.

Renovation costs for this project are projected to be \$100,000. The total number of square feet to be renovated is 7,650. Therefore, the average cost per square foot is ~\$13.07 for Applicant's request to add 10 LTCH beds.

2. Document that sufficient financing is available by providing a letter from a financial institution or an auditor's statement indicating that sufficient funds are available.

See Attachments IV.2.

3. Provide Service-Specific Revenues and Expenses (Form MO 580-1865) for the latest three (3) years, and projected through three (3) years beyond project completion.

See Attachments IV.3.

4. Document how patient charges are derived.

Patient charges are derived based on Applicant's historical charges at SSH St. Louis and SSH T&C.

5. Document responsiveness to the needs of the medically indigent.

Applicant accepts and offers services to medically indigent patients.

6. For a proposed new skilled nursing or intermediate care facility, what percentage of your admissions would be Medicaid eligible on the first of admission or become Medicaid eligible within 90 days of admission.

Not applicable.
