1. Terms and Conditions

**AWARD INFORMATION**

**Incorporation:** In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federal-regulations-policies/index.html>, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number **CDC-RFA-PS-24-0047**, entitled **High-Impact HIV Prevention and Surveillance Programs for Health Departments** and application dated April 29, 2024, as may be amended, which are hereby made a part of this non-research award, hereinafter referred to as the Notice of Award (NoA).

**Total Approved Funding is included in Summary Federal Award Financial Information on page 1 of the NOA.** All future year funding will be based on satisfactory programmatic progress and the availability of funds.

This award is fully funded for year 1 (10-month) budget period: **August 1, 2024 – May 31, 2025.**

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third-party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

The NOFO provides for the funding of multiple components under this award. For this NOA, the approved funding level for each component is shown below:

<b>NOFO Component</b>	<b>Amount</b>
Prevention	\$2,999,106
Surveillance	\$ 629,071

<b>Total:</b>	<b>\$5,660,216</b>

**Budget Revision Requirement:** By **August 31, 2024**, the recipient must submit a revised budget with a narrative justification. Failure to submit the required information in a timely manner may adversely affect the future funding of this project. If the information cannot be provided by the due date, you are required to contact the GMS/GMO identified in the CDC Staff Contacts section of this notice before the due date. Follow the CDC Prior Approval Guidance and submit the Budget Revision as an **amendment** in GrantSolutions. Ensure the revised budget addresses the following:

- Adjust the budget to the approved funding amount.

**Expanded Authority:** The recipient is permitted the following expanded authority in the administration of the award.

- Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of carried over unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO

may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

**Technical Review:** Within 5 days of this Notice of Award's (NOA) issue date, the Technical Review will be accessible to the recipient in GrantSolutions Grant Notes. Contact the assigned Program Officer indicated in the NOA with any questions regarding this document or any follow up requirements.

**Financial Assistance Mechanism:** Cooperative Agreement

**Substantial Involvement by CDC:** This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds. CDC activities for this program are as follows:

1. Collaborate to ensure coordination and implementation of strategies to support the implementation of HIV surveillance and prevention activities.
2. Work with awardees to identify and address capacity building assistance (CBA) and TA needs that are essential to the success of the project. Awardees must work with the assigned Project Officer to establish a mechanism to request direct CDC TA via the designated CDC system or portal.
3. Provide access to training and TA that will strengthen staff capacity relevant to all required strategies and activities of the program.
4. Provide guidance to awardees and set standards on data collection, use, and submission requirements.
5. Facilitate coordination, collaboration, and, where feasible, service integration among federal agencies, other CDC funded programs, other health departments, community based organizations, local and state planning groups, other CDC directly funded programs, national capacity building assistance providers, medical care providers, laboratories, recipients of the Ryan White HIV/AIDS Treatment Extension Act of 2009, and other partners working with people with HIV and at greatest risk for HIV infection toward common goals of risk reduction, disease detection, and a continuum of HIV prevention, care, and treatment.
6. Monitor awardee program performance using multiple approaches, such as site visits, emails, conference calls, and standardized review of performance, recipient feedback and other data reports, to support program development, implementation, evaluation, and improvement.
7. Provide guidance and coordination to funded organizations to improve the quality and effectiveness of work plans, evaluation strategies, products and services, and collaborative activities with other organizations.
8. Collaborate to compile and publish accomplishments, best practices, performance criteria, and lessons learned during the project period.
9. Collaborate in assessing progress toward meeting strategic and operational goals/objectives and in establishing measurement and accountability systems outcomes, such as increased performance improvements and best or promising practices.
10. Collaborate on strategies to ensure the provision of appropriate and effective HIV prevention services to populations of focus.
11. Provide requirements and expectations for standardized and other data reporting and support monitoring and evaluation activities.
12. Share information, best practices, lessons learned, and evaluation results (e.g., through

conferences, guidance, material development, webinars, data sharing publications, other social media, participation in meetings, committees, conference calls, and working groups related to the cooperative agreement and its projects).

13. Validation-Completion of a comprehensive Assessment of Data Security and Confidentiality Protections at least once during the project period. See Appendix B of the guidance (pages 43-54) for a more detailed description of the process and content. Upon completion and submission, the assessment will be reviewed and validated by CDC program monitors.

**Program Income:** Any program income generated under this cooperative agreement will be used in accordance with the Addition alternative.

- Addition alternative: Under this alternative, program income is added to the funds committed to the project/program and is used to further eligible project/program objectives.

Note: The disposition of program income must have written prior approval from the GMO.
