AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federal-regulations-policies/index.html>, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number **CDC-RFA-DP23-0010**, entitled BOLD Public Health Programs to Address Alzheimer's Disease and Related Dementias, and application dated April 17, 2024, as may be amended, which are hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Total Approved Funding is included in Summary Federal Award Financial Information on page 1 of the NOA. All future year funding will be based on satisfactory programmatic progress and the availability of funds.

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: It is anticipated that CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

The CDC will work in partnership with recipients to ensure the success of the cooperative agreement by providing technical assistance to the recipient through the availability of subject matter experts in AD/DRD, subjective cognitive decline, caregiving, and using the Behavioral Risk Factor Surveillance System (BRFSS) and other data to inform activities. CDC will also facilitate peer to peer sharing opportunities, provide technical assistance calls and webinars, and initiate calls/email communications for these activities as well as other technical assistance needs, as needed.

This also includes facilitating collaboration with other successful applicants funded through this NOFO, as well as organizations funded under CDC-RFA-DP20-2005 "BOLD Public Health Centers to Address Alzheimer's Disease and Related Dementias", and CDC-RFA-DP20-2003 "The National Healthy Brain Initiative" as well as relevant contracts and other projects.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- ☒ Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the

recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

Program Income: Any program income generated under this grant or cooperative agreement will be used in accordance with the Deduction alternative.

Deduction alternative: Under this alternative, program income is deducted from total allowable project/program costs to determine the net allowable costs on which the federal share of costs is based. This is similar to an applicable credit being applied to reduce the amount of the federal award.

Note: The disposition of program income must have written prior approval from the GMO.
