Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. - The TPO will lead a Technical Project Team (TPT) for each recipient, which will include representatives from the ATSDR Office of Capacity Development and Applied Prevention Science (OCDAPS), and ATSDR's Office of Community Health and Hazard Assessment (OCHHA);
- The TPT is responsible for providing technical assistance to the recipient; arranging for subject matter expertise as needed, assuring the planning implementation, and program improvement of all public health actions for each site;
- The TPT is responsible for approving each recipient's work plan;
- The TPT is also responsible for working with the recipients to improve their ability to assess and respond to environmental public health issues through the application of current science and sound public health practices;

- The TPT will also review the environmental health assessment reports and community involvement and health education and promotion plans and materials for technical/scientific accuracy, comprehensiveness, clarity, and adherence to ATSDR policy;
- The TPT will monitor and evaluate the performance of recipients;
- ATSDR regional staff are available to provide support and coordination for recipients, particularly for sites with strong community interest, or where liaison with EPA is specifically needed;
- ATSDR will provide updated guidance on emerging contaminants and will maintain updated chemical-specific comparison values (CVs) based on the best available science;
- ATSDR will maintain and make available the Public Health Assessment Site Tool (PHAST), the ATSDR Shower Model, other tools, and information websites;
- ATSDR will also facilitate peer-to-peer information sharing through the maintenance of ATSDR's SharePoint site and Cooperative Agreement Listserv; and
- The TPO will facilitate the clearance of certified environmental health assessment reports (via the current NCEH/ATSDR Policy on Clearance of Information Products) as outlined under Strategy A2 in the 'Work Plan' section above.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- ☒ Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of carried over unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

Program Income: Any program income generated under this grant or cooperative agreement will be used in accordance with the Addition alternative.

Addition alternative: Under this alternative, program income is added to the funds committed to the project/program and is used to further eligible project/program objectives.

Note: The disposition of program income must have written prior approval from the GMO.
