RE: Expiration Date on Urine Specimen Transport Tube

The expiration date for the **Aptima Urine Specimen Transport Tubes** has been extended. Below is a table that contains the Kit lot number, URINE device lot number, the original expiration date, and the extended expiration date. If you have any urine devices that expire March 31, 2022, please check to see if the lot number on the tube is listed below. If it is, continue to use the Aptima Urine devices that you have through the new, extended expiration date.
