Introduction

The Missouri Electronic Vital records (MoEVR) system is an online data entry system used to support the registration of Missouri vital events for the Missouri Department of Health and Senior Services and other users such as birthing facilities, attending physicians, funeral directors, and medical examiners. Through MoEVR, birthing facilities are able to enter newborn hearing screening and newborn CCHD screening results and meet the reporting requirements of Missouri Statutes 191.925 and 191.334.

This User Manual will outline the steps to obtain access to hearing screening and CCHD screening reporting within MoEVR and provide step by step instructions on how to use the database to report screening results. If questions or issues arise regarding MoEVR or the reporting process, please utilize the following contact phone numbers:

MoEVR Help Desk
573-751-7149

Bureau of Genetics and Healthy Childhood, Newborn Screening Program
573-751-6266 or 800-877-6246
Requesting Access

To access the MoEVR website, the application form **VITAL RECORDS USER ACCESS REQUEST MO 580-2968** must be completed by the applicant and approved by the Bureau of Vital Records. To obtain this form, please contact the Bureau of Vital Records either by phone at 573-526-0348 or by email at moevrsupport@health.mo.gov.

When you receive the form, the following information must be completed. At the top of the form, in the section **IDENTIFYING INFORMATION**, complete the data fields for:

- Name
- Office Address
- Social Security Number
- E-mail Address
- Office Telephone
- Office Fax

At the top of the form on the right side, there is a section with the heading **ACTION REQUESTED**. If you are not currently a MoEVR user, check mark the boxes for **Add User** and **Add Access**. If you already have a current login for MoEVR, check mark the box for **Add Access**. To the right of the section **ACTION REQUESTED**, there is a section with the heading **PREFERRED METHOD OF CONTACT**. Please indicate your preference.

Below the section **IDENTIFYING INFORMATION**, there is the section titled **SELECT ROLE(S) THAT APPLY**. In this section, go to the first column labeled **BIRTH** and check mark **Data Entry Clerk – Hearing** and **Data Entry Clerk - CCHD**. The sections pertaining to **CERTIFIER/DECERTIFIER, LICENSED FUNERAL DIRECTOR, LICENSED CERTIFIER**, and **LICENSED EMBALMER** do not apply to your request. However, to the right of these sections, there is a section where you are to list the name and complete address of each facility associated for this user. Please complete this section as applicable.

At the bottom of the form, there is the section with the heading **SECURITY STATEMENT/APPROVALS**. Sign your name in the **USER SIGNATURE** field and provide the date the form was completed. You will need to have a supervisor in your hospital/center/facility sign in the **SUPERVISOR SIGNATURE** field and **DATE when the form was signed**. Once the form has been completed, either mail the form to:

Missouri Department of Health and Senior Services  
Bureau of Vital Records  
P.O. Box 570  
Jefferson City, MO 65102-0570

OR

Fax the form to 573-526-3846, as listed at the top of the form.

Once the form has been processed, the Bureau of Vital Records will notify you by email stating that access has been granted. The email will contain an identification number, temporary password to be used to login to MoEVR, and a link that will guide you through the steps of selecting security questions and a security image.

Before MoEVR may be accessed, you must have the web browser Internet Explorer version 6.026 or higher.
Logging into MoEVR

1. The web address to login to MoEVR is: https://moevr.dhss.mo.gov/moevr/gui/login/welcomeMO.jsp.

2. Click the LOGIN button at the bottom of the page as indicated below.
3. Enter the **Username** provided by the Bureau of Vital Records. Your **Username** will be a combination of your last name and first name. Click the **Continue** button as indicated below. Please note: the username is case sensitive so make sure the caps lock is off before beginning.

4. Enter the appropriate answer to the security question you selected, and click the **Continue** button as indicated below.
5. Verify the security image shown is the one you selected and click the **Continue** button. Below is an example of a security image from which you can select.

![Security Image Example]

6. Enter your chosen password and click the **Log In** button as indicated below.

![Password Entry Example]
Locating the Reporting Screens

1. Click on Birth located below Main as indicated below.

2. Click on Hearing Screening below Main – Birth as indicated below.

3. Click Update below Main – Birth – Hearing Screening as indicated below.
Searching for Records

The information provided in the Registrant form will be used to search birth records from your facility only. Birth certificate data must be entered into the MoEVR system prior to this time in order for the baby’s information to be located.

1. Type any combination of the following data fields into the form labeled Registrant, using the tab key between text fields:
   - Child’s First Name
   - Child’s Middle Name
   - Child’s Last Name
   - Child’s Sex (From drop down select male, female or undetermined)
   - Child’s Date of Birth OR date of birth ranges From and To (Enter as mm/dd/yyyy)
   - Mother’s First Name
   - Mother’s Last Name
   - Mother’s Maiden Name
   - Father’s First Name
   - Father’s Last Name

   Once the Registrant information has been entered, click the Search button.

2. The child’s first and last name, date of birth, sex, and mother’s maiden name will appear on the screen as indicated below. If your search criteria were broad, you may have a list of names from which to choose.
3. Locate the appropriate record and click on **Details** at the far right of the row in which the baby’s name, birth date, sex, and mother’s maiden name appears.

4. After clicking on **Details**, the screen below should appear. This is information from the birth certificate entry screen. Verify this is the correct baby, and click the **Continue** button at the bottom of the screen as indicated below. If this is not the correct baby, go back to the Registrant screen by clicking **Cancel** on the screen below and then click **Cancel** on the Record List screen. Re-enter the information to locate the correct baby.

If you are still unable to locate a match, the most likely reasons would be that the birth certificate has not been entered or the baby has a different last name than was entered on the birth certificate. If the birth certificate has not been entered, you will need to wait to enter the screening results until after the birth certificate has been entered into MoEVR. If the baby was not born at your facility, you must complete a paper form. If the birth certificate has been entered, please refer to the baby’s birth record and the name entered on the birth certificate in order to ensure you are using the correct name.
Documenting Screening Results

1. Another view of the birth certificate portion of MoEVR will appear. Click the **Next** button to proceed to the data entry screen.

2. The hearing screening results reporting screen should now appear. Data fields that appear white should be filled. Begin data entry by indicating if a hearing screening test was performed or not. Continue to enter hearing screening results as indicated. Applicable boxes will turn white for data entry. Boxes that are shaded yellow cannot be filled.
3. Please provide the name of the physician who will be taking care of the baby after discharge to ensure timely follow-up if necessary. If the parents do not yet know the name of their baby’s physician, a clinic name with suffice. Any comments that may clarify baby’s disposition or provide additional information regarding screening results are welcome and appreciated. Click on the Next button as indicated below.

4. The CCHD Reporting screen should now appear. Begin data entry by indicating if CCHD screening was or was not completed. If “Yes” is selected, you will be prompted to enter data for the First CCHD Screening Result. If “No” is selected you will be prompted to enter data for why baby was not screened.
5. Continue to enter CCHD screening results as indicated. There is a comment box located at the bottom right of the screen. Please utilize this free text box to document any comments that may clarify baby’s disposition or provide additional information regarding CCHD screening results. Please review your documentation to verify all data has been entered accurately. Then click on the Finish button as indicated below.

6. The final screen is labeled Successful Transaction. The hearing screening and CCHD screening records have now been entered into the MoEVR system. Click the Repeat Task button located on the right side of the screen to enter additional screening results. This will take you back to the Registrant entry screen. If the Main Menu button is clicked, you will be taken back to step 1 of Locating the Reporting Screens as outlined on page 8 of this manual.
Troubleshooting

**Problem:** You cannot see the buttons below the picture and you cannot scroll down the page.

**Suggested Solution:** Attempt to enlarge or maximize your screen.

**Problem:** The security image shown is not the one you have previously selected.

**Suggested Solution:** You may have entered an incorrect username. Click the cancel button and start over by re-entering your username. If you have forgotten your user name, please contact the MoEVR help desk at 573-751-7149.

**Problem:** You accidently clicked the Finish button before you were finished documenting.

**Suggested Solution:** You can pull the baby’s record back up and continue documenting where you left off then click Finish to save the newly added information.

**Problem:** You want to document the first CCHD screen while you are waiting for the required time to pass to complete the second CCHD screen.

**Suggested Solution:** You must have completed the CCHD screening in its entirety before documenting the screening results in MoEVR.

**Problem:** A baby has been transferred or expired before screening could be completed.

**Suggested Solution:** Please make sure to document in MoEVR when a baby was not screened due to being transferred or expiring. This can be done by indicating that screening was not done and selecting the appropriate response to why the baby was not screened.

**Problem:** You have hearing screening results ready to enter into the system but not CCHD results (or vice versa).

**Suggested Solution:** You can log into MoEVR and enter the information you have available. Then when the remaining screening results are ready to enter, you can log back in and add the additional screening information. Please be sure to only add additional information and do not alter previously entered screening data. Please remember, hearing screening results must be reported no later than 7 days from the date of screening. CCHD screening results must be reported within 30 calendar days of completion of screening.

**Problem:** You do not have or do not know the Bloodspot Form ID Number.

**Suggested Solution:** Please contact the Bureau of Genetics and Healthy Childhood at 573-751-6266.
**Problem:** A baby was not born at your facility; therefore you cannot document the baby’s screening results in MoEVR.

**Suggested Solution:** In this situation, please complete the paper reporting forms available at:

and submit via mail or fax to the Bureau of Genetics and Healthy Childhood as indicated on the form.

If you have questions regarding technical difficulty logging into MoEVR, please call the MoEVR help desk at 573-751-7149.

For questions regarding hearing screening or CCHD screening results reporting, please call the Bureau of Genetics and Healthy Childhood at 573-751-6266 or 800-877-6246.
