Show Me Child Care Provider Search

The Missouri Department of Health and Senior Services Section for Child Care Regulation (SCCR) is responsible for inspecting regulated child care facilities in Missouri. SCCR has an online application, Show Me Child Care Provider Search, (<https://webapp01.dhss.mo.gov/childcaresearch/searchengine.aspx>) that allows the public to research child care facilities through a name, zip code, city, county or facility type search function. Resulting matches are displayed and the searcher can view additional facility information including online inspection reports. This newly implemented responsive design helps the public to view this application via PCs, tables and phones.

License exempt facilities do not display hours, age range or capacity. Please contact the child care facility for specific information.
