

Mead Johnson's Infant Formulas Container and Label Changes & Reformulations

1) Ready-To-Use (RTU) Container Changes

Containers for the following infant formulas in 32 oz. RTU are being changed from cans to plastic bottles.

- Enfamil Infant
- Gentlease
- Nutramigen

The infant formula above in plastic bottles may be on shelves at WIC authorized stores in late August /early September 2015.

2) EnfaCare (Powder) – Label Change

Enfamil EnfaCare (powder) was reformulated. This reformulation includes a change to the whey & casein ratio, increased vitamin D, and aligns the nutrient profiles of the powder and liquid formulations. Due to the reformulation, the label was also changed. The reformulated EnfaCare product with new label may be on shelves at WIC authorized stores in October, 2015.

3) Enfamil® Premature with Iron Infant Formulas Reformulation

Enfamil Premature formulas listed below are being reformulated based on the 2014 Global Expert Recommendations. The changes include increased protein, a change in the whey & casein ratio, increased vitamin D, and minor changes in other vitamins and minerals.

- Enfamil Premature with Iron Nursette 24 Cal 2 oz RTU 6 pack
- Enfamil Premature Nursette 30 Cal 2 oz RTU 6-pack
- Enfamil Premature with Iron Nursette 20 Cal 2 oz RTU 6 pack
- Enfamil Premature High Protein Nursette 24 Cal 2oz RTU 6 pack

It is important to note that the reconstituted ounces and monthly allotments are not changing for these products
