

Emailing/Texting Clients

1. Open Microsoft Office Outlook to create the email reminder that will be delivered to the client's cell phone in the form of a text.
2. In the "TO" field type the client's phone number followed by the extension which corresponds to their cellular provider. Example:
5732910829@messaging.sprintpcs.com
3. Clients will be able to reply to the text. Their message will be returned to the email account it was sent from.
