

Issuing Additional Exempt Formula to Infants (6-11 months) Who Cannot Consume Infant Foods

Infants 6 months of age or greater whose medical condition prevents them from consuming complementary infant foods (cereal, fruit and vegetables, and meat) may receive infant formula or exempt formula at the same maximum monthly allowance as infants ages 4 through 5 months of the same feeding option. A WIC 27 must be completed to issue extra infant formula. (ER 2.07000) ([WIC Update November 8, 2010](#))

Important Note:

Local WIC providers must **NOT** use “**ADD/REPLACE**” to issue the additional formula. Please see MOWINS Screen shots in this document for the new procedure.

A. BEFORE:

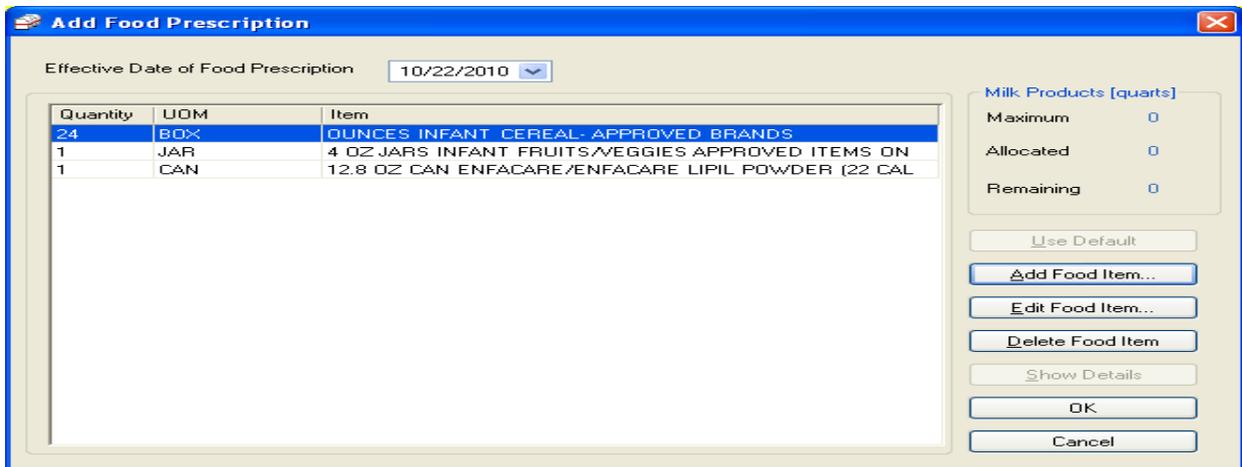

The screen shot below shows the Health information folder for participant 10 months 6 days old infant receiving formula and **no** infant food or cereal.

NOTE: FOOD PACKAGE III CHECK BOX NOT CHECKED.

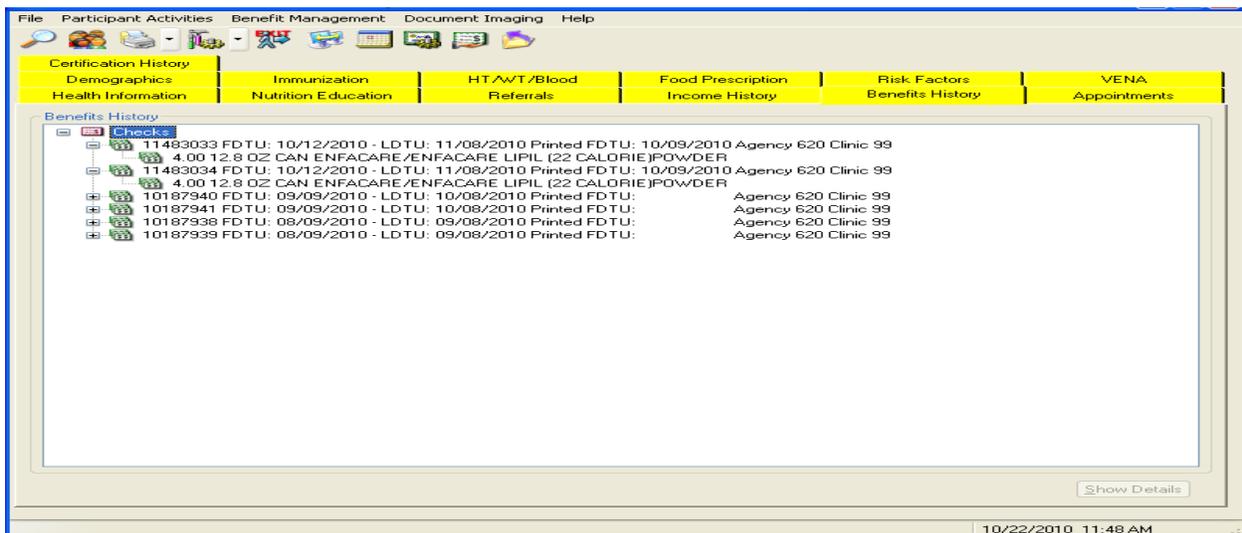

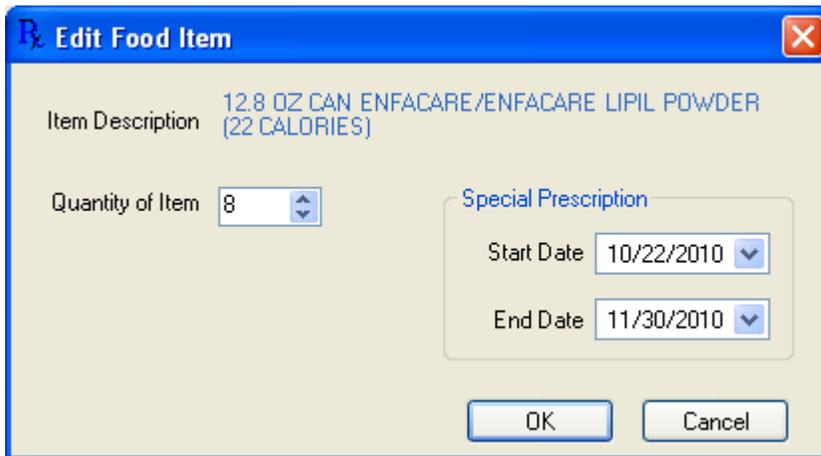

The screenshot displays the 'Child Health Information' window with the following data:

- Birth Information:** Birth Weight: 6 Lbs 0 Ozs; Birth Height: 19 In 0 8ths; Premature Birth: ; Gestation Weeks: 38; Birth Facility: HOSPITAL
- Mother's Information:** Birth Date: 9/9/1990; On WIC: ; State WIC Information: ID 00678113, Name MAMA TEST
- Feeding Information:** Ever Breastfed: No; Requires Food Package III; Breastfeeding Now: ; Amount of Breastfeeding: Not Applicable; Reason(s) Stopped: Advised to Stop by Physician or Other Health Professional; Date Supplemental Feeding Began: 5/5/2010
- Medical Conditions:** Diabetes Mellitus: ; Hypertension or Prehypertension:

Original food prescription was giving participant a maximum number of 8 cans of formula and no infant food because of a medical condition. We had to go through the direct ship process to get the 3 additional cans of formula required. See below for the default food package for an infant 6-11 months old receiving cereal and infant food.

MOWINS did not allow more than 8 cans to be printed for a 6-11 month old infant even though they did not get infant food as shown below.

B. NOW:

MOWINS allows LWPs to issue the additional formula and not go through the direct ship process to provide the additional formula required when the process below is followed.

1. Check the Food Package III box in the health information folder as shown below.

OK Cancel

- When you click OK, the window below appears. Click “YES” because we are not providing infant food/cereal to the infant.

- Editing the food package allows 11 cans of Enfacare to be issued to the participant as shown in the steps below.

- 1 can Enfacare can be edited to issue a maximum of 11 cans of Enfacare as shown below.

New food prescription shows 11 cans of Enfacare can be provided participant.

- No Direct shipment needed.**
