

Cash Value Vouchers - Starting April 9, 2014, when you are setting up food prescriptions for benefits that will be printing for June 1, 2014 and later, there will be a new item in MOWINS for Cash Value Vouchers that will increase the amount to \$8.00 for children. The actual food item will have an effective date of June 1, 2014. This will require new food prescriptions to be updated for Women and Children when you are printing benefits for the period beginning June 1, 2014. The following are the steps that will be required to make these updates to the food prescription.

1. If you have not entered a new food prescription for June 1, 2014 or later, when you go to the issue benefits screen for women and children, you will see the following message:

Food prescription contains food item " FOR FRESH/FROZEN FRUITS OR VEGETABLES - (1136)" which expires on 05/31/2014 for benefit set

2. You will need to go to the Food Prescription tab in the Participant Folder and Add a new Food Prescription dated 06/01/2014.
